Rich Thanks to Racism Jim Freeman, 2021-04-15 More than fifty years after the civil rights movement there are still glaring racial inequities all across the United States In *Rich Thanks to Racism* Jim Freeman one of the country's leading civil rights lawyers explains why as he reveals the hidden strategy behind systemic racism He details how the driving force behind the public policies that continue to devastate communities of color across the United States is a small group of ultra wealthy individuals who profit mightily from racial inequality In this groundbreaking examination of strategic racism Freeman carefully dissects the cruel and deeply harmful policies within the education criminal justice and immigration systems to discover their origins and why they persist He uncovers billions of dollars in aligned investments by Bill Gates Charles Koch Mark Zuckerberg and a handful of other billionaires that are dismantling public school systems across the United States He exposes how the greed of prominent US corporations and Wall Street banks was instrumental in creating the world's largest prison population and our most extreme anti immigrant policies Freeman also demonstrates how these racism profiteers prevent flagrant injustices from being addressed by pitting white communities against communities of color obscuring the

fact that the struggles faced by white people are deeply connected with those faced by people of color Rich Thanks to Racism is an invaluable road map for all those who recognize that the key to unlocking the United States full potential is for more people of all races and ethnicities to prioritize racial justice **Crime Prevention** Stephen Schneider,2014-12-16 In Crime Prevention Theory and Practice Second Edition Dr Schneider has updated every chapter in this reliable text using the latest research the most recently published articles and books and feedback from professors and students using the first edition Providing an introduction to dominant approaches key concepts theories and research *Buffalo Sanitary Bulletin* Buffalo (N.Y.). Meiners, Maisha T. Winn, 2014-07-16 The United States of America is in possession of the largest prison population in the world with 2.3 million people currently behind bars. This number is predominantly and disproportionately made up of communities of colour and poverty. Between 1987 and 2007 the U.S. prison population tripled, the direct result of various tough on crime public policies. Organizers and scholars use the term prison industrial complex (PIC) to name the structure that encompasses the expanding economic and political contexts of the detention and corrections industry in the USA. The PIC is a network that sutures capital, communities, and the State to a permanent punishment economy. The term the PIC aims to capture the range of material and ideological forces that shape the growth of detention, the political and lobbying power of the corrections officers unions, the framing of prisons and jails as a growth industry in the context of deindustrialization, the production and sales of technology and security required to maintain and expand the state of incarceration, and the naturalization of isolation as a logical response to harm. Education and Incarceration highlights the significance of centering agency and autonomy and documents scholars who work to be accountable to justice movements and communities, not simply to academic disciplines or to research. Additionally, as emerging scholars committed to challenging the PIC, these authors struggle to build multi-layered analytic and material tools for resistance within and beyond the walls of schools, jails, and prisons. This book provides snapshots of practices in motion, activist scholars working to engage to be accountable to families, communities, and larger justice movements, and to build abolition democracies. This book was originally published as a special issue of *Race, Ethnicity and Education*.
