Safe Sex In A Dangerous World:

Melancholia and Moralism Douglas Crimp, 2004 Essays challenging the increasing denial of the AIDS crisis and the rise of conservative gay politics In *Melancholia and Moralism* Douglas Crimp confronts the conservative gay politics that replaced the radical AIDS activism of the late 1980s and early 1990s He shows that the cumulative losses from AIDS including the waning of militant response have resulted in melancholia as Freud defined it gay men s dangerous identification with the moralistic repudiation of homosexuality by the wider society With the 1993 march on Washington for lesbian and gay rights it became clear that AIDS no longer determined the agenda of gay politics it had been displaced by traditional rights issues such as gay marriage and the right to serve in the military Journalist Andrew Sullivan notorious for pronouncing the AIDS epidemic over even claimed that once those few rights had been won the gay rights movement would no longer have a reason to exist Crimp challenges such complacency arguing that not only is the AIDS epidemic far from over but that its determining role in queer politics has never been greater AIDS he demonstrates is the repressed unconscious force that drives the destructive moralism of the new anti liberation gay politics expounded by such mainstream gay writers as Larry Kramer Gabriel Rotello and Michelangelo Signorile as well as Sullivan Crimp examines various cultural phenomena including Randy Shilts s bestseller *And the Band Played On* the Hollywood films *Silence of the Lambs* and *Philadelphia* and Magic Johnson s HIV infection and retirement from the Los Angeles Lakers He also analyzes Robert Mapplethorpe s and Nicholas Nixon s photography John Greyson s AIDS musical *Zero Patience* Gregg Bordowitz s video *Fast Trip* Long Drop the Names Project Quilt and the annual Day without Art *The State of the Language* Christopher Ricks, Leonard Michaels, 1990-01-01 Fifty new contributors have written essays and poems that engage the English language as it is today This new edition includes bad language that has lately done so well in today s society **Art Matters** Julie Ault, 1999-09 A collection of intensive discussions about the role of visual arts in public life The past decade has seen American culture deeply divided by debates over social identity public morality communal values and freedom of expression A key focus of these polarizing discussions has been the role of visual arts in public life In *Art Matters* five leading cultural critics and two prominent contemporary artists show the ways that this debate has profoundly reshaped our view of American culture Lucy Lippard investigates the extraordinary recent transformations in visual art Michele Wallace takes on high art popular culture and African American identity David Deitcher discusses queer culture and AIDS Carole S Vance ponders censorship and sexually explicit imagery and Lewis Hyde considers democracy and culture Projects by artists Julie Ault and Andrea Fraser provide a context for these debates *Art Matters* also offers a close examination of attempts to develop alternative funding sources for artists focusing specifically on the influential private foundation Art Matters a foundation which became an important proponent for new forms of art and for protecting freedom of expression through its funding and advocacy efforts

about the care of sick human beings It is about the heroic struggle of individuals with AIDS It is about their daily coping in the workplace and at home about economic problems the loss of friendship and family support and physical and emotional pain But it is also about empowering them to deal with their disease viewing them not as victims but as warriors vital and active participants in their battle against AIDS This book is also about the social context in which HIV infected persons and people with AIDS live It is about how we must learn to deal with sickness in more compassionate and humanitarian ways and what we yet need to learn It touches on the health care system that confronts those who are ill on programs of prevention and education and on the personal implications of broader national and local policies
