A Safe Place for Women Kelly White, 2011-01-11

There is life, joy and love after abuse. As a young wife and mother, Kelly White experienced violence and terror at the hands of her husband. She knows firsthand the love-hate relationships women often have with their abusers and the devastating effects these feelings can have on independence and self-confidence. She has sought refuge in a women's shelter, worked to obtain help from law enforcement and struggled financially and emotionally as a single mother and sole breadwinner. Twenty-five years later, as the leader of nationally recognized programs for battered women, she has helped thousands of women and children rebuild their lives. White's own story and those of other women who have survived and thrived are related here. She also provides practical tools for abused women and the friends, family and professionals who seek to help them. You learn to recognize dangerous red flags and break through denial, use the legal, law enforcement and organizational resources available in your community, overcome fear and stress to build a new life, discover the ways in which you are more powerful, competent and capable than you thought. White includes important information on the impact of domestic violence on children, the role of drugs and alcohol in abuse, violence against people with disabilities and battering in the lesbian, gay, bisexual, transgendered communities. While violence against women is not a thing of the past, using this resource can help battered women make it a part of their pasts and create a safe and fulfilling future for themselves and their children.

My Second-Favorite Country Sivan

Zakai, 2022-06-14. Reveals how young American Jewish children come to develop their views about Israel. Israel has long occupied a prominent place in the lives and imaginations of American Jews, serving as both a symbolic touchstone and a source of intercommunal conflict. In *My Second-Favorite Country*, Sivan Zakai offers the first longitudinal study of how American Jewish children come to think and feel about Israel, tracking their evolving conceptions from kindergarten to fifth grade. This work sheds light on the perception of Israel in the minds of Jewish children in the US and provides a rich case study of how children more generally develop ideas and beliefs about self, community, nation and world. In contrast to popular views of America's youth as naive or uninterested, this book illuminates both the complexity of their thinking and their desire to be included in conversations about important civic and political matters. Zakai draws from compelling empirical data to prove that children spend considerable effort contemplating the very concepts that adults often assume they are not ready to discuss. Indeed, the book argues that over the course of their elementary school education, children develop and express deep

interest in complex issues such as the intricacies of identity and belonging conflicting ways of framing the past and the demands of civic responsibility Ultimately Zakai argues that in order to take children s ideas seriously and better prepare them for a world full of disagreement a substantive shift in educational practices is necessary
