Safety First The Making Of New Labour:

The Making of New Labour's European Policy Russell Holden, 2001-12-17 Russell Holden considers the policy reversal on Europe made by the Labour Party between 1983 and 1999. It charts and analyzes how the Party became pro-European with particular emphasis on how this change was conceived and implemented. In so doing it concentrates on how the European issue became a political priority and dynamic tool for promoting economic reform and Party unity, two essential requirements in making the Party New Labour a credible alternative government in the eyes of the general public.

Welfare Hot Buttons Sylvia B. Bashevkin, 2002-09-28 *Welfare Hot Buttons* provides one of the first comparative assessments of contemporary social policy change in three Western countries: Canada, the United States, and Great Britain. Sylvia Bashevkin probes the fate of single mothers on social assistance during the period when three third-way political executives were in office: Bill Clinton (US), Jean Chrétien (Canada), and Tony Blair (Great Britain). She argues that despite seemingly progressive campaign rhetoric, the social assistance policy realities under each of these three leaders were in crucial respects more punitive and restrictive than those of their neo-conservative predecessors in the 1980s. Bashevkin addresses even more contentious issues in her study, including the question of whether Anglo-American welfare states are being eclipsed by what she views as newly emergent duty states. In her comparative approach and in her substantive analysis, Bashevkin makes an original and critical contribution to the existing body of literature on social policy.

The Planning Polity Mark Tewdwr-Jones, 2005-06-27 *Planning is not a technical and value-free activity. Planning is an overt political system that creates both winners and losers. The Planning Polity* is a book that considers the politics of development and decision-making and political conflicts between agencies and institutions within British town and country planning. The focus of assessment is how British planning has been formulated since the early 1990s and provides an in-depth and revealing assessment of both the Major and Blair governments' terms of office. The book will prove to be an invaluable guide to the British planning system today and the political demands on it. Students and activists within urban and regional studies, planning, political science, and government, environmental studies, urban and rural geography, development, surveying, and planning will all find the book to be an essential companion to their work.

Manufacturing in Transition Rick Delbridge, James Lowe, 2005-08-04 The future of British manufacturing is of immense importance and topicality. As we slide towards a service sector economy based on finance and tourism, it is worth reflecting on whether this is the most appropriate or inevitable scenario. *Manufacturing in Transition* makes a genuinely interdisciplinary contribution to the debate over the UK's strategy for industrial renewal. students it looks at the current state of British manufacturing sector within the global economy and asks whether manufacturing matters in the twenty first century The books explores key issues such as the chances of renewal developments in the management and organisation of operations and supply chains the differences made by Japanese methods This is a timely assessment of the UK s industrial development and makes a major contribution to debates over the industrial strategy and the position of manufacturing within industrialized economies Politics in Europe M. 1945 this book includes chronologies of education acts reports and initiatives and summaries of major legislation **Penal Policy and Political Culture in England and Wales** Mike Ryan, 2003-01-01 I dislike heaping so much praise on a book as people often imagine another agenda purpose or friendship is at stake That makes writing a review of Penal Policy and Political Culture all the more difficult This really is an excellent book and it is very difficult to put down For those with and interest in the small p politics of penal policy it will be of immense appeal Students enrolled on courses looking at pressure groups and their influence or lack thereof will not find a better text For those at the coal axe governors managers officers and prisoners it will fascinate and enlighten And for reformers it is something of a manifesto Utterly Suberb Steve Taylor Prison Service Journal For many years making penal policy in England and Wales was in the hands of a small male metropolitan elite made up of Ministers liberal lobby groups like the Howard League and the Prison Reform Trust and senior civil servants Even Parliament was kept at a respectful distance and public opinion on important penal questions like capital punishment was taken to be something that had to be managed and circumvented rather than acted upon Penal Policy and Political Culture in England and Wales looks at challenges to this cosy elite policy making world first from below as prisoners groups such as PROP and victims groups like Women Against Rape demanded their say in the 1970s and 1980s and then later as the New Right deliberately mobilised public opinion around penal questions as a mechanism to support its harsh social and economic policies in the 1980s and 1990s *Towards a Market in Broadcasting* C.
