**Decisions of the World Court Relevant to the UN Convention on the Law of the Sea** Barbara Kwiatkowska,2010-04-27 This pioneering publication provides a Reference Guide to the significant contributions of decisions of the World Court as the principal judicial organ of the United Nations and the world s most senior Court with the broadest material jurisdiction to the development of the law of the sea as a part of the global system of peace and security The Guide

is dedicated to the Court's former President Stephen M. Schwebel in appreciation of his belief that it is important for the Court to further explore its pre-eminently unique role throughout the Third Millennium. Whereas the format of specific entries covered by this Reference Guide largely corresponds to the Parts and Annexes of the 1982 UN Law of the Sea Convention (UNCLOS) and the 1994 Part XI Agreement, the heading of each entry also contains as appropriate references to the 1930 League of Nations Hague Draft, the four 1958 UN Geneva Conventions and the 1995 UN Straddling Stocks Agreement as well as to the 1972 UN Stockholm, the 1992 Rio UNCED and the 2002 Johannesburg instruments. This will enable the reader to relate the Court's decisions to the respective UNCLOS provisions as originated from and as implemented by these global framework instruments at various stages of codification and progressive development of the law of the sea. The entries cover principally Judgments and Orders including the related pleadings of the PCIJ and the ICJ and those decisions of Arbitral Tribunals and other third party fora as well as national courts which have been relied upon in the Court's jurisprudence. In addition, the recent decisions of the ITLOS and some other fora such as the Annex VII Southern Bluefin Tuna, Singapore v Malaysia, Barbados, Trinidad and Tobago, Guyana, Suriname and the Mox Plant Arbitral Tribunals as well as references to treaties are also listed under specific entries as appropriate. Tables of Cases and Treaties will importantly facilitate the use of this Reference Guide. It has proven to be an indispensable tool for the Judges and governmental and other practitioners in furthering the coherent development of the law of the sea by international courts and tribunals on the one hand and for the international community of academics in the adequate assessing of this development on the other hand.

**Class Interruptions** Robin Brooks, 2021-12-20 As downward mobility continues to be an international issue, Robin Brooks offers a timely intervention between the humanities and social sciences by examining how Black women's cultural production engages debates about the growth in income and wealth gaps in global society during the late twentieth and early twenty-first centuries. Using an interdisciplinary approach, this innovative book employs major contemporary texts by both African American and Caribbean writers: Toni Morrison, Gloria Naylor, Dawn Turner, Olive Senior, Oonya Kempadoo, Merle Hodge, and Diana McCaulay to demonstrate how neoliberalism within the broader framework of racial capitalism reframes structural inequalities as personal failures, thus obscuring how to improve unjust conditions. Through interviews with authors, textual analyses of the fiction, and a diagramming of cross-class relationships, Brooks offers compelling new insight on literary portrayals of class inequalities and division. She expands the scope of how the Black women's literary tradition since the 1970s has been conceptualized by repositioning the importance of class and explores why the imagination matters as we think about novel ways to address long-standing and simultaneously evolving issues.
