Sailor Souvenirs:

Souvenirs of the Fur Trade Mary Malloy, Peabody Museum of Archaeology and Ethnology, 2000-12-18 American mariners made more than 175 voyages to the Northwest Coast during the half century after 1787 The art and culture of Northwest Coast Indians so intrigued American sailors that the collecting of ethnographic artifacts became an important secondary trade Malloy has brought details about these early collections together for the first time The Sailors' Magazine and Seamen's Friend, 1905

Animal Places Jacob Bull, Tora Holmberg, Cecilia Åsberg, 2017-11-22 Nonhuman animals are ubiquitous to our human societies Interdisciplinary human animal research has for 50 years drawn attention to how animals are ever present in what we think of as human spaces and cultures Our societies are built with animals and through all kinds of multispecies interactions From public spaces and laboratories to homes farms and in the wilderness human and nonhuman animals meet to make space and place together through webs of power relations However the very spaces of these interactions are not mute or passive themselves The spaces where species meet matter and shape human animal relations This book takes as its starting point the relationship between place and human animal interaction It brings together the work of leading scholars in human animal studies from a variety of disciplinary and interdisciplinary backgrounds With a distinct focus on place physical space and biocultural geography the authors of this volume consider the ways in which space human and nonhuman animals co constitute each other how they make spaces together produce meaning around them struggle over access how these places are storied and how stories of spaces matter Presenting studies thematically and including a variety of nonhuman creatures in a range of settings this book delivers new understandings of the importance of nonhuman animals to understandings of place and the role of places in shaping our interactions with nonhuman creatures As pets as laboratory animals as exhibits as parasites as livestock as quarry as victims of disaster or objects of folklore this book offers insights into human animal intermingling at locales and settings of great relevance to many areas of research including geography sociology science and technology studies gender studies history and anthropology This book meets the evolving interest in human animal interaction anthrozoology and the environmental humanities in relation to the research on space and place that currently informs the humanities and the social sciences

Liverpool China Traders Christina Baird, 2007 Perhaps the most enduring image of the China Trade is the clipper ship carrying tea from China In 1869 the clippers were finally overshadowed by the introduction of steam vessels which could make passage through the Suez Canal significantly shortening the length of the voyage Letters journals and order books have survived which tell us about the traders their private trading activities motivation tastes and private lives This book examines the role played by the port of Liverpool in this time of great change The book examines Liverpool's early participation in the China Trade following the cessation of the British East India Company's monopoly of the trade in 1834 and maps the changes in artistic tastes that the commencement of free trade gave rise to These new tastes represented a true fusion of European and Chinese cultural influences and
