the Cross translations from Syriac into Greek and Greek into Syriac with specific studies on the Aristotle commentary tradition and Hunayn's translation of Hippocrates Aphorisms The volume concludes with the case of a distinctive topos employed by Greek and Latin scribes but whose earliest and latest attestations are to be found in colophons of Syriac manuscripts

History and Religion in Late Antique Syria H. J. W. A Memory of Violence Christine Shepardson, 2025 A Memory of Violence traces the rhetorical strategies of religious radicalization that encouraged fifth and sixth century miaphysite Christians to be willing to suffer physical deprivation and harm rather than abandon the church that the late Roman Empire defined as heresy after the Council of Chalcedon in 451 These Syriac texts created genealogies of orthodoxy and heresy represented their heroes as martyr saints and reminded their followers of God's coming judgment Later they gained renewed relevance when they were copied and translated under the emerging Umayyad caliphate of Islam This book reshapes representations of late antiquity by centering Syriac Christianity in these complex and politicized doctrinal conflicts Tracing these rhetorical strategies not only sheds light on early Christian history in the Middle East but also provides a rich case study of religious schism devotion and survival that continues to resonate today

After Bardaisan G. J. Reinink, Alexander Cornelis Klugkist, 1999 The present collection of twenty five studies represents the general theme of continuity and change as applied to various topics connected with the rich heritage of Syriac culture These studies cover the period from the early third to the fourteenth centuries with an incidental excursion into modern times The focal areas are early Syriac Christianity and its Umwelt and the later West Syrian and East Syrian traditions Most of the contributions deal with historical subjects with the general theme elaborated in two different directions first ecclesiastical history monasticism hagiography and theology and second secular history literature scholarship ideas and religions In a more specific sense the contributions focus on patterns of cultural continuity and change such as the influence and reception of Greek secular and theological culture and literature developments within early and later Syriac asceticism religious controversy the interaction between different religious communities and the effects of major political and social changes on the cultural and religious life of the various Syriac communities One of the most radical political changes in the Middle East concerns the Arab conquest and the rise of Islam in the seventh century Some authors explicitly discuss the consequences of these changes for the Christian Syriac and Armenian populations The

effects of these historical events on intellectual social and economic life are some of the topics discussed in this connection Of particular interest is the number of newly edited Syriac texts in this volume which make available translations of Greek theological works resulting from the reception of pagan philosophy and magic texts reflecting popular belief **From Ephrem to Romanos** Sebastian P. Brock, 1999 It is often forgotten that many people in Late Antique Syria were bilingual in Syriac and Greek The 16 articles in this volume explore different aspects of the interaction between these two literary cultures exemplified in the works of two of the greatest Christian poets and hymnographers of the period Ephrem the Syrian and Romanos the Melode Among the topics covered are the legend of King Abgar and the origins of Christianity in Edessa Syriac texts on the finding of the Cross translations from Syriac into Greek and Greek into Syriac with specific studies on the Aristotle commentary tradition and Hunayn's translation of Hippocrates Aphorisms The volume concludes with the case of a distinctive topos employed by Greek and Latin scribes but whose earliest and latest attestations are to be found in colophons of Syriac manuscripts *Studies in Syriac Christianity* Sebastian P. Brock, 1992 The main concern of these articles is the interaction of Syriac with Greek culture in Late Antiquity The book includes an examination of the process of translation from Greek into Syriac studies of a number of unusual Greek texts in Syriac and inter church relations in the 5th 7th centuries
