Leibniz on God and Man in 1686 Ryan Phillip Quandt, 2023-06-05

G W Leibniz's *Discourse on Metaphysics* is viewed by many scholars as a milestone of his mature thought, his first attempt to systematize various stances. A lengthier theological work, *Examination of the Christian Religion*, written a few months after, receives less press. While Leibniz's intent for writing the theological piece may be left for speculation, *Leibniz on God and Man in 1686* demonstrates that there is clear overlap between these two texts. Leibniz borrows from the metaphysics and physics of *Discourse* in his theology, and he writes that his metaphysical tract addresses questions on grace, God's concurrence with creatures, the nature of miracles, the cause of sin, and the origin of evil, the immortality of the soul, ideas, etc. Despite challenges for drawing them close, Ryan Phillip Quandt argues that these texts converge in the moral quality of God and man that Leibniz took as the cornerstone of his system in 1686. *Discourse* coheres in

a moral and scientific vision while Examination centers on moral commitments Love of God is their shared ideal **Delphi**
