Saints In Action:

Saints in Action Dumas Malone, 1939 **Private Desires, Political Action** Michael Laver, 1997-02-24 Private Desires Political Action is an accessible overview of one of the most important approaches to the study of politics in the modern world rational choice theory Michael Laver does not set out to review this entire field but rather to discuss how we might use rational choice theory to analyze the political competition that affects almost every aspect of our lives The broad ranging scope of the book introduces the theory at many levels of analysis including the private desires of individuals the social context of how people fulfil their desires and the problems of collective action The discussion of these problems extends into the arena of politics where the activities of political entrepreneurs or politicians and the formation of political parties and coalitions are addressed

Renewing Spiritual Perception with Jonathan Edwards Ray S. Yeo, 2016-06-17 Jonathan Edwards theologically sophisticated psychology of grace remains one of the deepest and most fertile theological psychologies in the Protestant tradition The heart of his account lies in his foundational doctrine of spiritual perception where he locates the psychological core of the engrafted Christian life This work revisits Edwards doctrine from the perspective of recent work in the philosophy of emotions and other related philosophical sub disciplines The aim is to recover this often neglected theme in contemporary theology and renew it by bringing Edwards theological insights into conversation with various spheres of contemporary philosophical discussion The account of spiritual perception that emerges from this interdisciplinary dialogue is one that seeks to revise update and deepen Edwards own thinking on the matter in five major ways The book concludes by arguing that the capacity for spiritual and emotional perception of the supreme good is grounded upon a wisdom like seminal virtue centred upon the incarnate Christ i e Christocentric wisdom Such wisdom on the renewed account is considered the psychological core of transforming grace and the foundational basis upon which all other Christian virtues are formed
