Salam Divine Revelations From The Actual God:

Salam Shyam D. Buxani, 2003 This book contains his best and faithful transcription of God's magnificent teachings as he experienced them SALAM's soaring verse and incisive prose provide answers to mankind's deepest unanswered questions Its penetrating insights provide guidance for our spiritual needs guidelines for our daily lives and a new message for our modern world *The Testimony of the Spirit* R. Douglas Geivett, Paul K. Moser, 2017 The theme of the testimony of the Spirit of God has received inadequate attention in recent publications This book corrects that inadequacy with new essays from an interdisciplinary perspective including theology Biblical studies philosophy of religion ethics psychology aesthetics and apologetics **Why Christian Faith Still Makes Sense (Acadia Studies in Bible and Theology)** C. Stephen Evans, 2015-05-12 In recent years the Christian faith has been challenged by skeptics including the New Atheists who claim that belief in God is simply not reasonable Here prominent Christian philosopher C Stephen Evans offers a fresh contemporary and nuanced response He makes the case for belief in a personal God through an exploration of natural signs which open our minds to theistic possibilities and foster belief in the Christian revelation Evans then discusses why God's self-revelation is both authoritative and authentic This sophisticated yet accessible book provides a clear account of the evidence for Christian faith concluding that it still makes sense to believe **Jews for Salaam** Imam Warith-Deen Umar, 2008-03-11 Jews for Salaam a book of hope a blueprint for world peace Christians Jews and Muslims have common roots This book focuses on the unique position the Jewish people are in to move the world toward peace Abdullah bin Salaam a little known Jewish leader in Arabia at the time of the Prophet Islam is the centerfold of this writing Model Jews of Arabia embraced Messenger Muhammad the last Prophet The author presents this vital history with Bible Talmud Quran and Hadith to make the case for the Jews for Salaam The challenge to embrace this truth is welcoming **The Publishers Weekly**, 2003 *The Revelation Given to St. John the Divine* John Herbert Latham, 1896, *Gods and Religions* Saul Silas Fathi, 2023-12-22 **The Ethics of War and Peace** Terry Nardin, 2020-12-08 A superb introduction to the ethical aspects of war and peace this collection of tightly integrated essays explores the reasons for waging war and for fighting with restraint as formulated in a diversity of ethical traditions religious and secular Beginning with the classic debate between political realism and natural law this book seeks to expand the conversation by bringing in the voices of Judaism Islam Christian pacifism and contemporary feminism In so doing it addresses a set of questions How do the adherents to each viewpoint understand the ideas of war and peace What attitudes toward war and peace are reflected in these understandings What grounds for war if any are recognized within each perspective What constraints apply to the conduct of war Can these constraints be set aside in situations of extremity Each contributor responds to this set of questions on behalf of the ethical perspective he or she is presenting The concluding chapters compare and contrast the perspectives presented without seeking to adjudicate their differences Because of its inclusive objective comparative and dialogic approach the book serves

as a valuable resource for scholars journalists policymakers and anyone else who wants to acquire a better understanding of the range of moral viewpoints that shape current discussion of war and peace In addition to the editor the contributors are Joseph Boyle Michael G Cartwright Jean Bethke Elshtain John Finnis Sohail H Hashmi Theodore J Koontz David R Mapel Jeff McMahan Richard B Miller Aviezer Ravitzky Bassam Tibi Sarah Tobias and Michael Walzer The Art of Contextual Theology Victor I. Ezigbo, 2021-05-28 Christianity has an inherent capability to assume as its novel mode of expression the local idioms customs and thought forms of a new cultural frontier that it encounters As a result Christianity has become multicultural and multilingual What is the role of theology in the imagination and articulation of Christianity's inherent multiculturalism and multi vernacularity Victor Ezigbo examines this question by exploring the nature and practice of contextual theology To accomplish this task this book engages the main genres of contextual theology explores echoes of contextual theological thinking in some of Jesus's sayings and discusses insights into contextual theology that can be discerned in the discourses on theology and caste relations Dalit theology theology and primal cultures African theology and theology and poverty Latin American liberation theology **Islamic Political Ethics** Sohail H. Hashmi, 2009-01-10 One of the most dynamic aspects of the Islamic revival during the past two centuries has been the rethinking of Islamic political thought A broad range of actors ideas and ideologies characterize the debate on how Islamic ethics and law should be manifested in modern institutions Yet this aspect of the return to Islam has been neglected by policymakers the media and even many scholars who equate political Islam with merely one strand labeled Islamic fundamentalism Bringing together ten essays from six volumes of the Ethikon Series in Comparative Ethics this book gives a rounded treatment to the subject of Islamic political ethics The authors explore the Islamic ethics of civil society boundaries pluralism and war and peace They consider questions of diversity discussing among other subjects Islamic regimes policies regarding women and religious minorities The chapters on war and peace take up such crucial and timely issues as the Islamic ethics of jihad examining both the legitimate conditions for the declaration of war and the proper conduct of war In their discussions the contributors analyze the works of classical writers as well as the full range of modern reinterpretations But beyond these analyses of previous and contemporary thinkers the essays also reach back to the two fundamental sources of Islamic ethics the Qur'an and traditions of the Prophet to develop fresh insights into how Islam and Muslims can contribute to human society in the twenty first century The authors are Dale F Eickelman Hasan Hanafi Sohail H Hashmi Farhad Kazemi John Kelsay Muhammad Khalid Masud Sulayman Nyang Bassam Tibi and M Raquibuz Zaman From the foreword by Jack Miles Western foreign ministers and secretaries of state may have to learn a little theology if the looming clash between embattled elements both in the West and in the Muslim umma is to yield to disengagement and peaceful coexistence to say nothing of fruitful collaboration It is then no idle academic exercise that the thinkers whose work is collected here have in hand The long term practical importance of their work can scarcely be overstated **'Well that about wraps it up for God'** Katharina
