Sales Law And Product Liability:

Sales Law and Product Liability Michael H. Whincup, Michael Whincup, 1999 Examining a wide range of typical commercial contract terms this text explains what is involved in making a contract discussing liabilities and remedies for breach of contract **International Product Liability Law and Uniform Sales Law** Diana Sewerin, 2000 Any contract for the sale of goods between international commercial traders may be subject to the U N Convention on Contracts for the International Sale of Goods CISG If a buyer suffers damages as a result of a breach of contract she is entitled to damages under the Convention The issue in this thesis is whether a buyer may also invoke product liability actions under national tort law if a defective good causes bodily injury or property damage The provisions of the CISG generally displace national law governing the rights and obligations deriving from a contract of sale Despite the desirability of removing the uncertainties of foreign liability regimes from international trade domestic rules of product liability remain in general applicable Only if national tort actions interfere with the core of the Convention s liability regime must the domestic law be modified

Massimo Bianca, Stefan Grundmann, 2002 European standards of interpretation including interpretation of comparative law and reference to the directive and to instruments of European law are now part of sound legal practice even in the most routine of domestic cases The huge reforms in many national laws in some countries the rewriting of their Code to reflect the Directive is no more than good approximation What really matters and what ultimately will be the decisive standard is the Directive The Geneva Conventions on bills of exchange and cheques the Vienna Convention on the International Sale of Goods and the Brussels Convention on jurisdiction and recognition of judgments were milestones They did not however influence national private law in its core area as profoundly and as extensively as the EU Sales Law Directive will This book starts off by explaining the instruments of European law and their influence on national law and lays solid foundations for a thorough transnational understanding of every single provision of the directive Also discussed are the philosophical historical and economic foundations of the different rules which are followed by a detailed commentary on each individual article Internet of Things and the Law Guido Noto La Diega, 2022-10-14 Internet of Things and the Law Legal Strategies for Consumer Centric Smart Technologies is the most comprehensive and up to date analysis of the legal issues in the Internet of Things IoT For decades the decreasing importance of tangible wealth and power and the increasing significance of their disembodied counterparts has been the subject of much legal research For some time now legal scholars have grappled with how laws drafted for tangible property and predigital offline technologies can cope with dematerialisation digitalisation and the internet As dematerialisation continues this book aims to illuminate the opposite movement rematerialisation namely the return of data knowledge and power within a physical smart world This development frames the book's central question can the law steer rematerialisation in a human centric and socially just direction To answer it the book focuses on the IoT the sociotechnological phenomenon that is primarily responsible for this shift After a thorough analysis of how existing laws can be interpreted to empower IoT end users Noto La Diega leaves us with the fundamental question of what happens when the law fails us and concludes with a call for collective resistance against smart capitalism The Open Access version of this book available at <http://www>

Modernising and Harmonising Consumer Contract Law Geraint G. Howells, Reiner Schulze, 2009 In October 2008 the European Commission published the Proposal for a Consumer Rights Directive a proposal that suggests far reaching changes to the core of consumer contract law Four current directives are replaced by a new overarching piece of legislation In doing so full harmonization should for the most part take the place of the minimum standard presently in force in the EU Although a welcomed initiative the extent and possible effects of the Proposal have certainly brought a number of issues to the fore In January 2009 legal experts from universities legal practices and the civil service met at Manchester University to address the issues raised by the Proposal and to address the question of the extent to which the Proposal can indeed contribute to the modernization and harmonization of European consumer contract law This book contains the proceedings of the conference and includes papers that analyze criticize and suggest improvements for the Proposal
