the Americanization of legal education in fourteen countries The second half of the twentieth century witnessed the export of  
American power both hard and soft throughout the world What role did US cultural and economic imperialism play in legal  
education American Legal Education Abroad offers an unprecedented and surprising picture of the history of legal education  
in fourteen countries beyond the United States Each study in this book represents a critical history of the Americanization of  
legal education reexamining prevailing narratives of exportation transplantation and imperialism Collectively these studies  
challenge the conventional wisdom that American ideas and practices have dominated globally Editors Susan Bartie and  
David Sandomierski and their contributors suggest that to understand legal education and to respond thoughtfully to the  
mounting present day challenges it is essential to look beyond a particular region and consider not only the ideas behind  
legal education but also the broader historical political and cultural factors that have shaped them American Legal Education  
Abroad begins with an important foundational history by leading Harvard Law School historian Bruce Kimball who explains  
the factors that created a transportable American legal model and the book concludes with reflections from two prominent  
American law professors Susan Carle and Bob Gordon whose observations on recent disruptions within US law schools  
suggest that their influence within the global order of legal education may soon fall into further decline This book should be  
considered an invaluable resource for anyone in the field of law      *Federal Courts* Martin H. Redish, 1989      *Criminal*
