Xwelíqwiya Rena Point Bolton, Richard Daly, 2013-11-01 Xwel qwiya is the life story of Rena Point Bolton a St l matriarch artist and craftswoman Proceeding by way of conversational vignettes the beginning chapters recount Point Bolton s early years on the banks of the Fraser River during the Depression While at the time the St l or Xw lmexw as they call themselves today kept secret their ways of life to avoid persecution by the Canadian government Point Bolton s mother and grandmother schooled her in the skills needed for living from what the land provides as well as in the craftwork and songs of her people passing on a duty to keep these practices alive Point Bolton was taken to a residential school for the next several years and would go on to marry and raise ten children but her childhood training ultimately set the stage for her roles as a teacher and activist Recognizing the urgent need to forge a sense of cultural continuity among the younger members of her community

Point Bolton visited many communities and worked with federal provincial and First Nations politicians to help break the intercultural silence by reviving knowledge of and interest in Aboriginal art She did so with the deft and heartfelt use of both her voice and her hands Over the course of many years Daly collaborated with Point Bolton to pen her story At once a memoir an oral history and an insider ethnography directed and presented by the subject herself the result attests both to Daly s relationship with the family and to Point Bolton s desire to inspire others to use traditional knowledge and experience to build their own distinctive successful and creative lives

Oral History on Trial Bruce Granville Miller, 2024-03-20 In many western countries judicial decisions are based on black letter law text based well established law Within this tradition testimony based on what witnesses have heard from others known as hearsay cannot be considered as legitimate evidence This interdiction however presents significant difficulties for Aboriginal plaintiffs who rely on oral rather than written accounts for knowledge transmission This important book breaks new ground by asking how oral histories might be incorporated into the existing court system Through compelling analysis of Aboriginal legal and anthropological concepts of fact and evidence Oral History on Trial traces the long trajectory of oral history from community to court and offers a sophisticated critique of the Crown s use of Aboriginal materials in key cases A bold intervention in legal and anthropological scholarship this book is a timely consideration of an urgent issue facing Indigenous communities worldwide and the courts hearing their cases

Other Ways of Growing Old Pamela T. Amoss, Stevan Harrell, 1981 As anthropologists we offer this book about aging in a wide variety of human societies in the hope of its making three contributions First this book will help to remedy a massive neglect of old age by the discipline of anthropology The pioneering work of Leo Simmons 1945 has remained a lonely monument since the 1940 s for despite recent interest in the subject of aging in modern Western societies on the part of social gerontologists and sociologists little has been done by anthropologists on aging in non Western societies Where it has been treated at all it has been in the form either of a few final paragraphs in the discussion of the life cycle or of a simple ethnographic fact among other facts about a certain social system What has been missing has been any attempt to put aging in a cross cultural or comparative perspective to give this vital subject the same treatment that has been accorded marriage for example or death or inheritance or sex roles Second this book will bring a needed cross cultural perspective to the study of social gerontology The recent explosion of interest in this field has been largely confined to the study of aging in North America and Europe But we anthropologists feel that such a culturally limited study though interesting and productive in its own right is dangerously narrow if it does not consider what aging is like in other societies What aspects of aging for example are human universals and have to be planned for as inevitable and what aspects are cultural particulars and can be avoided modified or strengthened under certain social conditions By presenting both a biological account of the universals of human aging Weiss and specific ethnographic accounts of aging in a wide variety of societies we believe we can help to put North American aging into perspective Third we hope this book will serve as an illustration of a particular anthropological

approach to unity and diversity in human societies and cultures Perhaps the main task of sociocultural anthropology is a twofold one the explanation of cross cultural universals somehow rooted either in the biological nature of the human species or in universal imperatives of social organization and the explanation of intercultural variations rooted in a dialectical interaction between culture and the material conditions partially created by culture in which it exists If unity and diversity can indeed be explained in this way the cross cultural study of aging can serve as a paradigm By first setting out what seem to be the universals determined by the biology of the human species and by then exploring the range of variation in cultural solutions we ought to be able to formulate a set of principles that will allow us to explain why variations occur in a certain way Nine ethnographic case studies are enough we believe to enable us to formulate some preliminary hypotheses about the nature and causes of variation in the social process of aging *The Green Depression* Matthew M. Lambert, 2020-10-16 Dust storms Flooding The fear of nuclear fallout While literary critics associate authors of the 1930s and 40s with leftist political and economic thought they often ignore concern in the period s literary and cultural works with major environmental crises To fill this gap in scholarship author Matthew M Lambert argues that depression era authors contributed to the development of modern environmentalist thought in a variety of ways Writers of the time provided a better understanding of the devastating effects that humans can have on the environment They also depicted the ecological and cultural value of nonhuman nature including animal predators and pests Finally they laid the groundwork for environmental justice by focusing on the social effects of environmental exploitation To show the reach of environmentalist thought during the period the first three chapters of *The Green Depression* American Ecoliterature in the 1930s and 1940s focus on different geographical landscapes including the wild rural and urban The fourth and final chapter shifts to debates over the social and environmental effects of technology during the period In identifying modern environmental ideas and concerns in American literary and cultural works of the 1930s and 40s *The Green Depression* highlights the importance of depression era literature in understanding the development of environmentalist thought over the twentieth century This book also builds upon a growing body of scholarship in ecocriticism that describes the unique contributions African American and other nonwhite authors have made to the environmental justice movement and to our understanding of the natural world Crossing Mountains Phyllis Ngai, 2012-03-16 Collaboration among contemporary Native American communities and local public schools is vital for nurturing Native languages Although public schools cannot bear the entire burden Native language education will remain on the margins without their support Using case studies of school districts on the Flathead Indian Reservation in Montana *Crossing Mountains* provides important insights about integrating Native language learning into public education Phyllis Ngai argues that carefully designed and inclusive Native language programs can benefit communities and students regardless of ethnic identity by providing for language revitalization and promoting intercultural competence Passing it on , 2008-01-01 The Flathead Indian Reservation in western Montana is home to the Salish Pend d
