Salmagundi Reader:

The Salmagundi Reader Robert Boyers, Peggy Boyers, 1996-10-01 The New Salmagundi Reader comprises forty three pieces in subject categories such as the Sense of the Past Homelands Writers The Art Scene Politics and Varieties A Cynthia Ozick Reader Cynthia Ozick, 1996 Ozick's range of influences is obvious in the fine selections of poems and short stories as well as essays from Art those new to Cynthia Ozick's work will revel in the discovery of a major writer Uncommon Readers Christopher J. Knight, 2003-01-01 Impressive in scope and erudition Christopher Knight's Uncommon Readers focuses on three critics whose voices mixing eloquence with pugnacity stand out as among the most notable independent critics working during the last half century The critics are Denis Donoghue Frank Kermode and George Steiner and their independence a striking characteristic in a time of corporate criticism is reflective of both their backgrounds Donoghue's Catholic upbringing in Protestant ruled Northern Ireland Kermode's Manx beginnings and Steiner's Jewish upbringing in pre Holocaust Europe and their temperaments Each represents a party of one a fact that has on the one hand made them the object of the occasional vituperative dismissal and on the other contributed to their influence and remarkable longevity Since the 1950s Steiner Donoghue and Kermode have each maintained a highly public profile regularly contributing to such influential publications as Encounter New Yorker New York Review of Books Times Literary Supplement and the London Review of Books This aspect of their work receives particular attention in Uncommon Readers for it illustrates a renewed interest in the role of the public critic especially in relation to the genre of the literary review essay and signals a sustained conversation with an educated public namely the common reader Knight makes the argument for the review essay as a serious and still viable genre and he examines the three critics in light of this assumption He expounds upon the critics separate interests Kermode's identification with discussions of canonicity Steiner's with cultural politics and Donoghue's with the persistent claims of the imagination while also revealing the ways in which their work often reflects theological interests Lastly he attempts to adjudicate some of the conflicts that have arisen between these critics and other literary theorists especially the post structuralists and to discuss the question of whether it is still possible for critics to work independently Original and deliberative Uncommon Readers presents a renewed defense of the tradition of the common reader Episodic Poetics Matthew Garrett, 2014 The early United States was a culture of the episode In Episodic Poetics Matthew Garrett merges narrative theory with social and political history to explain the early American fascination with the episodic piecemeal plot Since Aristotle's Poetics the episode has been a vexed category of literary analysis troubling any easy view of the subsumption of unwieldy narrative parts into well plotted wholes Garrett puts forward a new dialectical theory of episodic form to recast this peculiar object of literary history looking to the episode as a narrative unit smaller than the genre in order to give an account of all the period's major prose genres Garrett shows how in ways both magisterial and mundane episodic forms gave variegated shape to the

social political and economic conflicts that defined the moment of national formation Episodic Poetics proposes a new method of reading and a new way of conceiving of literary history The book asks how we might understand the cultural role of the episode as a literary micro unit one that forces us to read individual narratives in terms of an always partial and fraught development toward plot Episodic Poetics combines theoretical reflection and historical rigor with careful readings of texts from the early American canon such as The Federalist Benjamin Franklin s Autobiography and the novels of Charles Brockden Brown along with hitherto understudied texts and ephemera such as Washington Irving s Salmagundi Susanna Rowson s Trials of the Human Heart and the memoirs of the metalworker and failed entrepreneur John Fitch Garrett recounts literary history not as the easy victory of grand nationalist ambitions but rather as a series of social struggles expressed through writers recurring engagement with incompletely integrated forms **The Art of Retreat** Laurel V.

Hankins,2025-05-13 The political and cultural fantasy of home as a retreat from the pressures of the world first emerged in the U S alongside two major nineteenth century literary movements Romanticism and domestic fiction Upending accepted gendered narratives from this period The Art of Retreat posits that these movements originated from a domestic culture already in transition in which home was frequently a more complicated site of self interested pleasure coerced labor creole social reproduction homosocial intimacy bachelor whimsy petty tyranny racial abuse and transgender capacity The early national periodicals sketches and novels examined here lend themselves to this interpretation Hankins argues that the literary tradition emerging from these decades one that aligned creative genius with domestic retreat reminds us that a politics that appeals to private feeling must reckon with new interpretations of labor kinship and reform in exchange for the promise of consensual citizenship Published by Bucknell University Press Distributed worldwide by Rutgers University Press

Christianity in the Public Square: Literatures of Politics, Protest and Social Justice Anthony R. Grasso, CSC, Editor, 2014-04-29 Proceedings of the Conference on Christianity Literature Northeast Regional Meeting Nov 2-3 2012 King's College Wilkes-Barre PA Rev Anthony R Grasso CSC Ph.D. Editor **Fables Of Abundance** Jackson Lears, 1995-11-03 Fables of Abundance ranges from the traveling peddlers of early modern Europe to the twentieth century American corporation exploring the ways that advertising collaborated with other cultural institutions to produce the dominant aspirations and anxieties in the modern United States *Romantic Geography* Yi-Fu Tuan, 2013 Geography is useful indeed necessary to survival Everyone must know where to find food water and a place of rest and in the modern world all must make an effort to make the Earth our home habitable But much present day geography lacks drama with its maps and statistics descriptions and analysis but no acts of chivalry no sense of quest Not long ago however geography was romantic Heroic explorers ventured to forbidding environments oceans mountains forests caves deserts polar ice caps to test their

power of endurance for reasons they couldn't fully articulate Why climb Everest Because it is there In this book the author considers the human tendency stronger in some cultures than in others to veer away from the middle ground of common sense to embrace the polarized values of light and darkness high and low chaos and form mind and body In so doing venturesome humans can find salvation in geographies that cater not so much to survival needs or even to good comfortable living as to the passionate and romantic aspirations of their nature **The Republic** ,1885 **A Careful Longing** Aaron Santesso,2006-10 This book examines the emergence of a new genre during the eighteenth century the nostalgia poem This genre is best understood by reconceiving the premises of nostalgia itself examining it as first and foremost a mode of idealization rather than a longing for the past From the poems that make up this genre we have derived many of our modern ideas and images of nostalgia In tracing the history of the nostalgia poem this book also traces a pattern of tropic change in which a new genre is built around tropes extracted from the dying genres This new genre then begins producing its own tropes in the case of the nostalgia poem these include idealized school days and ruined villages As these tropes become overly familiar the nostalgia poem genre itself begins to fall apart This book reevaluates poems ranging from Dryden's Hastings elegy to Crabbe's The Village showing how works as varied as Gray's Eton College Ode Macpherson's forged epics and Goldsmith's The Deserted Village are all part of a doomed literary experiment an experiment that has nevertheless determined the course of modern nostalgic thought American and British Poetry Harriet Semmes Alexander,1984
