Tanner, 2018-12-01 As the new chief of the Michigan Department of Conservation's Fish Division in 1964 Howard A. Tanner was challenged to do something spectacular He met that challenge by leading the successful introduction of coho salmon into the Michigan waters of the Great Lakes This volume illustrates how Tanner was able to accomplish this feat from a detailed account of his personal and professional background that provided a foundation for success the historical and contemporary context in which the Fish Division undertook this bold step to reorient the state's fishery from commercial to

sport the challenges such as resistance from existing government institutions and finding funding that he and his colleagues faced the risks they took by introducing a nonnative species the surprises they experienced in the first season's catch to finally the success they achieved in establishing a world renowned biologically and financially beneficial sport fishery in the Great Lakes Tanner provides an engaging history of successfully introducing Pacific salmon into the lakes from the perspective of an ultimate insider
