Lords Of The Ascendancy:

Toleration and State Institutions Karen Stanbridge, 2003-01-01 Toleration and State Institutions explores the rise of more charitable British policy toward Catholics in Ireland and in Quebec beginning in the latter half of the eighteenth century Karen Stanbridge carefully demonstrates that Catholic relief arose more gradually and encountered less opposition than is generally maintained This work sheds new light on the official treatment and mistreatment of minorities at home during the height of British expansion abroad offering a fascinating example of the divisions and rapprochements that characterize the relationship between state and society **"The" Westminster Review** ,1832 The Westminster Review ,1832 **The**

Making Ireland English Jane Ohlmeyer, 2012-06-26 This groundbreaking book provides the first comprehensive study of the remaking of Ireland's aristocracy during the seventeenth century It is a study of the Irish peerage and its role in the establishment of English control over Ireland Jane Ohlmeyer's research in the archives of the era yields a major new understanding of early Irish and British elite and it offers fresh perspectives on the experiences of the Irish English and Scottish lords in wider British and continental contexts The book examines the resident peerage as an aggregate of 91 families not simply 311 individuals and demonstrates how a reconstituted peerage of mixed faith and ethnicity assimilated the established Catholic aristocracy Tracking the impact of colonization civil war and other significant factors on the fortunes of the peerage in Ireland Ohlmeyer arrives at a fresh assessment of the key accomplishment of the new Irish elite making Ireland English **Lords of the Ascendancy** Francis Godwin James, 1995 This book is the first major study of the Irish House of Lords Though less important than the Commons the Lords was a viable and important part of the Irish government throughout the eighteenth century It approved all legislation and initiated some Many peers also controlled parliamentary boroughs This study concentrates on the largely resident peers who attended parliament It discusses their origins education marriages careers and economic position Professor James reveals these peers as conscientious public servants who looked at issues seriously and occasionally voted contrary to the wishes of the government of the day The genealogical data provided here will be a valuable reference source for scholars working in the history of this period **Parliamentary Debates** ,1892

Studies in the Constitutional History of the Thirteenth and Fourteenth Centuries, Historical Series, No. LXXIII Bertie Wilkinson, **War** Thomas Baty, John Hartman Morgan, 1915 **The Parliamentary Debates (official Report[s])** ... Great Britain. Parliament, 1827 The Democratic Review of British and Foreign Politics, History, and Literature... ,1850 **The English Historical Review** Mandell Creighton, Justin Winsor, Samuel Rawson Gardiner, Reginald Lane Poole, Sir John Goronwy Edwards, 1928 *Restoration Ireland* Mr Coleman Dennehy, 2013-06-28 In recent decades the historiography of early modern Ireland in general and of the seventeenth century in particular has been revitalised However

whilst much of this new work has focused either on the critical decades of the 1640s or the Williamite wars the Restoration period still remains largely neglected As such this volume provides an opportunity to explore the period between 1660 and 1688 and reassess some of the crucial events it witnessed For whilst it may lack some of the high drama of the Civil War or the Glorious Revolution this was a time that established a political and social settlement based upon the maintenance of the massive land confiscations of the 1650s that would underpin the social and class structure of Ireland until the end of the nineteenth century Including contributions from both established and younger scholars this collection provides a set of interlocking and interrelated essays that focus on the central concerns of the volume whilst occasionally reaching beyond the chronological and thematic barriers of the period as required The result is a homogenous volume that not only addresses a glaring historiographical gap in critical areas of the Restoration period but also serves to take stock of the work that has been done on the period and as a consequence of this it will help stimulate and provoke further argument debate and research into the history of Ireland during the Restoration period Directed primarily at an academic audience this collection will be useful to a range of scholars with an interest in seventeenth century political social and religious history

Family and Empire Yuen-Gen Liang, 2011-09-21 In the medieval and early modern periods Spain shaped a global empire from scattered territories spanning Europe Africa and the Americas Historians either have studied this empire piecemeal one territory at a time or have focused on monarchs endeavoring to mandate the allegiance of far flung territories to the crown For Yuen Gen Liang these approaches do not adequately explain the forces that connected the territories that the Spanish empire comprised In Family and Empire Liang investigates the horizontal ties created by noble family networks whose members fanned out to conquer and subsequently administer key territories in Spain s Mediterranean realm Liang focuses on the Fern ndez de C rdoba family a clan based in Andalusia that set out on mobile careers in the Spanish empire at the end of the fifteenth century Members of the family served as military officers viceroys royal councilors and clerics in Algeria Navarre Toledo Granada and at the royal court Liang shows how over the course of four generations their service vitally transformed the empire as well as the family The Fern ndez de C rdoba established networks of kin and clients that horizontally connected disparate imperial territories binding together religious communities Christians Muslims and Jews and political factions Comunero rebels and French and Ottoman sympathizers into an incorporated imperial polity Liang explores how at the same time dedication to service shaped the personal lives of family members as they uprooted households realigned patronage ties and altered identities that for centuries had been deeply rooted in local communities in order to embark on imperial careers *The House of Lords in the XVIIIth Century* Arthur Stanley Turberville, 1927

Catholic World , 1923 *Born to Rule* Ellis Archer Wasson, 2000 This book is a study of the governing class in Great Britain and Ireland based on a complete survey of all families who participated regularly in parliament Using the records of the History of Parliament and the results of his own independent research Ellis Wasson has reconstructed the shape and

structure of Britain's small and remarkably stable ruling elite from medieval times to 1945. No other European governing class was so rich or able to survive into the modern era with much of that wealth and privilege intact. Wasson shows how its unique two-tiered structure of a handful of ancient families on top and a much larger second echelon broadly open to new men from business helped Britain become the first modern society and prolonged the elite's supremacy.
