**The Spanish American Novel**

John S. Brushwood, 2014-07-03 In *The Spanish American Novel* John S Brushwood analyzes the twentieth century Spanish American novel as an artistic expression of social reality In relating the generic history of the novel to extraliterary events in Spanish America he shows how twentieth century fiction sets forth the essence of such phenomena as the first Per n regime the Mexican Revolution the Che Guevara legend indigenismo and the strongman political type In essence he views the novel as art rather than as document but not as art alienated from society The discussion is organized chronologically opening with the turn of the century and focusing on novels from 1900 to 1915 that exemplify various aspects of the nineteenth century literary inheritance Brushwood then highlights the avant garde fiction influenced by Proust and Joyce of the 1920s as a precursory movement to the new Latin American novel a phenomenon that came into its own during the 1940s He then examines the boom in Spanish American fiction the period of extensive international recognition of certain works which he dates from 1962 or 1963 In each era considered the development of the novel is placed in dual perspective One view that of particularly significant novels in light of others published during the same year is a cross section of the genre at one particular moment The second view that of a panorama of novels published in intervals between significant moments in the history of the novel is more general and selective in the number of books discussed Combining the historical with the analytical approach the author proposes that the experience of a novel in which reality has been transformed into art is essential to our understanding of that reality

[The Cambridge Companion to the Latin American Novel](#) Efraín Kristal, 2005-05-26 The diverse countries of Latin America have produced a lively and ever evolving tradition of novels many of which are read in translation all over the world This Companion offers a broad overview of the novel s history and analyses in depth several representative works by for example Gabriel Garc a M rquez Machado de Assis Isabel Allende and Mario Vargas Llosa The essays collected here offer several entryways into the understanding and appreciation of the Latin American novel in Spanish speaking America and Brazil The volume conveys a real sense of the heterogeneity of Latin American literature highlighting regions whose cultural and geopolitical particularities are often overlooked Indispensable to students of Latin American or Hispanic studies and those interested in comparative literature and the development of the novel as genre the Companion features a comprehensive bibliography and chronology and concludes with an essay about the success of Latin American novels in translation

*Mexico in Its Novel* John S. Brushwood, 2014-06-23 *Mexico in Its Novel* is a perceptive examination of the Mexican reality as revealed through the nation's novel. The author presents the Mexican novel as a cultural phenomenon a manifestation of the impact of history upon the nation an attempt by a people to come to grips with and understand what has happened and is happening to them. Written in a clear and graceful style this study examines the life of the novel as a genre against the background of Mexican chronology. It begins with a survey of the mid twentieth century novel the Mexican novel which came of age in the period following the 1947 publication of Agustín Yáñez's *The Edge of the Storm*. During this time the novel resolved some of its most complicated problems and as a result offered a wider and deeper view of reality. Having established this circumstance John Brushwood goes back in time to the Conquest and then moves forward to the twentieth century novel. Passing from the Colonial Period into the nineteenth century the author recognizes the relationship between Romanticism and the desire for logical social behavior and then views this relationship in the perspective of the Reform an attempt to bring order out of chaos. The novel under the Díaz dictatorship is seen in three different phases and the last Díaz chapter actually moves into the Revolution itself. The novel during the years of fighting is considered along with the first post Revolutionary fiction. From that point the developing conflict within Mexican reality itself a conflict between introversion and extroversion nationalism and cosmopolitanism reaches out to seek its solution in the novels of the first chapter.
