issues surrounding this labyrinthine topic Topics covered include Victims of Domestic Violence Theoretical Perspectives and Correlates to Domestic Violence Cross Cultural Perspectives and Religious Perspectives Understudied Areas within Domestic Violence Research Domestic Violence and the Law and Child Abuse and Elder Abuse      **Female Aggression** Helen Gavin, Theresa Porter, 2014-12-15 This critique explodes the stereotypical assumption that men are more prone than women to aggression A cogent and holistic assessment of the theoretical positions and research concerning female aggression Examines the treatment punishment and community response to female aggressive behavior Examines topics including sexual power serial murder and the evolution of gendered aggression Treats female aggression in its own right rather than as a counterpart to male violence      **American Mass Murderers** Valrie Plaza, 2015-03-02 American Mass Murderers collects nearly 700 pages of information about the most notorious killers in America as well as some of the lesser known murderers

Cultural Shaping of Violence Myrdene Anderson, 2004 Violence and increasing public awareness of violence mark society's contemporary condition Sept 11 2001 made this condition even more indelible Cultural Shaping of Violence proposes that violence cannot be described let alone understood or addressed unless tied to the cultural settings that influence it The book's 27 chapters researched and written by 28 scholars of seven nationalities document violence in 22 distinct cultural settings in 17 nation states on five continents Internal to each society a number of sites of violence may thrive from the domestic sphere to social institutions and political arenas In whatever site or guise violence reverberates throughout the social fabric and beyond      Engendered Death Joseph W. Laythe, 2011-12-16 Engendered Death Pennsylvania Women Who Kill is an historical and interdisciplinary study of women who kill in Pennsylvania from the 18th century to the present It is not an examination of what motivates women to kill although the reader may deduce that from the case studies included Instead it is an examination of how society perceives women who kill and how the gender lens is applied to them throughout the legal process in the media and in the courtroom What makes this work particularly unique is its combination of both scholarly analysis and narrative case studies As such it will appeal to both the scholar and the reader of true crime non fiction If we are to recognize the complex variables at play in all criminal offenses we will need to understand that the laws of a community its social values its politics economics and even geography play a factor in what laws are enforced and against whom they are enforced The decision to define and label certain behaviors and certain people was based on social political and economic considerations of each community Thus the commission of murder by a woman in Arizona may have a variety of factors associated with it that are not present in the case of a woman who murdered her husband in Maine This study in part because of the volume of cases and in part to limit the variables affecting the cases has limited its scope of women killers to the state of Pennsylvania Pennsylvania is the ideal state to study because of its long and stable legal and political traditions its historically diverse population and the large number of newspapers that will help us gauge the public's view of women and women who kill By limiting our scope to one state we know that the legal definitions are fairly consistent for all of the

women during a certain period and we can more easily identify the shifts in social values regarding women and homicide

**The Functions of Unnatural Death in Stephen King** Rebecca Frost, 2022-03-02 The Functions of Unnatural Death in Stephen King Murder Sickness and Plots examines over thirty of King's works and looks at the character deaths within them placing them first within the chronology of the plot and then assigning them a function Death is horrific and perhaps the only universal horror because it comes to us all Stephen King known as the Master of Horror rarely writes without including death in his works However he keeps death from being repetitious or fully expected because of the ways in which he plays with the subject maintaining what he himself has called a childlike approach to death Although character deaths are a constant the narrative function of those deaths changes depending on their placement within the plot By separating out the purposes of early deaths from those that come during the rising action or during the climax this book examines the myriad ways character deaths in King can affect surviving characters and therefore the plot Even though character deaths are frequent and hardly ever occur only once in a book King's varying approaches to and uses of these deaths show how he continues to play with both the subject and its facets of horror throughout his work
