A History of Advertising Jef I Richards, 2022-05-15 Advertising has always been a uniquely influential social force It affects what we buy what we believe who we elect and so much more We tend to know histories of other massive social forces but even people working in advertising often have a tenuous grasp of their field s background This book slices advertising s history into a sm rg sbord of specific topics like advertising to children political advertising people s names as advertisements 3D advertising programmatic buying and so much more offering a synopsis of how each developed and the role it played in this discipline In doing so many firsts are identified such as the first full page color magazine advertisement and the first point of purchase advertisement This book also reaches back farther in search of the earliest advertisements and it tells the story of the variety of techniques used by our ancestors to promote their products and ideas Part textbook part reference the book is an advertising museum in portable form suitable for all levels of students scholars and arm chair enthusiasts Please note that the hardback and eBook formats of this book feature full color printing The paperback is grayscale

Marketing Brands in Africa Samuelson Appau, 2021-09-11 This contributed volume serves as an authoritative reference and guide for anyone looking to study or build a brand in Africa Despite being touted as the last frontier of global brands very little research exists that examines brands and branding in this emerging market Authors cover crucial topics such as the history of branding in Africa branding approaches used by start ups religious organizations political parties and businesses in the informal economies of Africa as well as marketing Africa as a brand using practical cases empirical and critical approaches With the world s youngest population and the second fastest growing economies Africa has quickly become a hotbed for marketing and consumption of local and global brands While past research has mostly focused on examining the brand image of Africa and African countries or on branding Africa as a place for tourist consumption what is missing is a comprehensive guide that discusses the theory and practice of branding and brands in and from Africa Through theoretical and practical contributions the authors of this book seek to fill the knowledge gap about branding in and from Africa

Strange Lost Civilizations Benjamin Ramirez,AI,2025-04-03 Strange Lost Civilizations explores the captivating phenomenon of societies that once thrived but ultimately vanished leaving behind intriguing ruins and historical mysteries The book examines several ancient civilizations such as the Indus Valley Civilization the Nabataean Kingdom and the Ancestral Puebloans to understand the factors contributing to their collapse By studying these vanished civilizations we gain insights into societal resilience environmental factors and the cyclical nature of human progress The book adopts a narrative approach guiding readers through archaeological evidence fragmented texts and re-evaluated historical narratives It highlights the complex interplay between

environmental challenges social structures and external pressures that shaped these societies fates For example the book will demonstrate how climate change or resource depletion may have played a significant role in such societal collapses Divided into three sections the book first defines lost civilizations and the challenges of studying them The second section presents detailed case studies of specific civilizations exploring their history culture and the theories surrounding their demise Finally the book synthesizes lessons learned and draws broader conclusions about patterns of societal collapse offering a valuable perspective on the fragility of civilization and its potential implications for our own future Forgotten Civilizations Rupa Gupta,Gautam Gupta,2021-11-30 A history of the rediscovery of India s history Through the eighteenth and nineteenth centuries the Western world had very little knowledge or an extremely distorted view of the glorious and fascinating history of the Indian subcontinent In fact with little of the region s 3000 year old heritage formally preserved and documented it was widely believed that the country s history had begun with the reign of the Mughals When the British gained control over the subcontinent the scholars explorers and Indophiles among them discovered things and areas of great historical wonder but found few answers Armed with great intellectual curiosity they set out to uncover things no one had given a thought to earlier From William Jones who identified Chandragupta Maurya as Sandrocottus mentioned in Greek sources and set the first chronological point of reference for recorded Indian history to Charles Wilkins who designed the first typeface of the Bengali script from Henry Colebrooke who shone light on the wonders of ancient Indian scientific knowledge to Alexander Cunningham the father of Indian archaeology who led the first excavation of the Harappa site in the Punjab Forgotten Civilizations brings together the intriguing stories of fifteen intrepid Englishmen who dedicated their lives to rediscovering India s ancient heritage and redefining the significance of its pluralistic and sophisticated culture to the rest of the world
