Lost Leader:

Labour's Lost Leader Paul Tyler, 2007-06-29 The life story of Will Crooks has a Dickensian resonance As a working class child born into abject poverty he experienced the rigours of Poplar Workhouse and Poor Law school Nearly forty years later Crooks became Chairman of the Poplar Board of Guardians the very board that had given him shelter during his challenging early years Crooks was a member of the Coopers Union for fifty five years and a leading pioneer of the trade union and Labour movement for over thirty This significant and sometimes controversial figure has been overlooked by modern historians Here Paul Tyler presents a pioneering political biography of a significant Labour figure at both a local and national level and an important reinterpretation of the early trade union and labour movement from the 1880s to the 1920s

Browning and Wordsworth John Haydn Baker, 2004 This book will be of interest to students of English literature particularly those working on Bloomian influence theory Wordsworth or Browning as well as to more senior scholars working on poetry of the Romantic and Victorian periods The work will also interest those working on the deeply ambiguous figure of the later Browning simultaneously the most popular poet in the country after Tennyson and one of the most uncompromisingly complex and his vexed relationship with the reading public **BOOK JACKET** **Hearings** United States. Congress Senate, 1938

Library of Congress Subject Headings Library of Congress, 1992 *Library of Congress Subject Headings* Library of Congress. Office for Subject Cataloging Policy, 1992 **In The Shadow of Mandela** Alexander Johnston, 2019-12-12 This outstanding and original work goes to the heart of South Africa s political problems doubts as to the sustainability of the post apartheid settlement beset with divisions in the ruling ANC factionalism corruption and the widening of fault lines in state and society The leadership issue has become key and this will be the first specific examination of leadership in the light of Mandela s legacy and its effect on his successor as potential and actual leaders all in the shadow of Mandela as the architect of the transition from apartheid to democracy and with overarching moral authority and international reputation Alexander Johnston shows how his successors are judged against Mandela s achievements including the potentially impressive lost leaders and concentrating on his immediate successors Thabo Mbeki and Jacob Zuma The book concludes with an in depth assessment of new president Cyril Ramaphosa s potential to be a leader for a new dawn This is an objective and critical work by a close observer who acknowledges the achievement of South African leadership but is acutely aware of the doubts as to the sustainability of South Africa s hard won democratic settlement An essential read for all readers interested in leadership and in the traumatic history and future of Africa s leading state as the continent rises to global importance **Hearings** United States. Congress. Senate. Committee on Commerce, 1958 Pricing Strategies Robert M. Schindler, 2023-02-04

Written by a leading pricing researcher this book provides a simple unified system for the setting and management of prices. The pricing procedures described are grounded in basic research and are generally applicable over products, situations, and times. The result is that students gain a deeper, more generally useful understanding of this essential aspect of business. The author demystifies the math necessary for making pricing decisions. Using clear, direct language, he explains in detail how to apply expected value, multiple regression, price elasticity, and generalized breakeven analysis to essential pricing tasks. He uses a descriptive approach to explaining mathematical techniques so that formulas can be seen as simply more detailed specifications of intuitive ideas. Used in dozens of college and MBA classes all over the world, *Pricing Strategies* is now available in a second edition. This revised edition includes updated examples and exercises as well as expanded coverage of topics such as freemium and in-app pricing, subscriptions, tipping, pay what you want pricing, pricing algorithms, and dynamic pricing. Robert M. Schindler is a Professor of Marketing at Rutgers University, USA.
