**The Lost American Industrialist** Bob Fournier,2022-06-08 William Madison Wood was a gifted and successful Portuguese American industrialist in the late nineteenth and early twentieth century His rags to riches story is the fulfillment of the American Dream His accomplishments in textile manufacturing were known throughout the world His dedication to American patriotism and his extreme investment in the work of wool manufacturing gave rise to accomplishments that were acknowledged worldwide His wealth position and power of influence rivaled those of other great leaders of the Gilded Age But this great man became lost to history Why His work driven philosophy of life his obsessive drive to acquire and develop his internal struggle with grief and anguish his lost ethnic background his need to rule alone and his tragic and socially unacceptable manner of death were all part of the identity and life story of William Madison Wood Bob Fournier unpacks Wood s story with finesse showing how this esteemed man fell prey to the material trappings of a life of excessive labor power and wealth and the inability to temper these forces for well being While Wood was a man true to his era his life story offers much to consider in today s world The characters may have changed but many of the issues remain the same race ethnicity autocracy abuse of power and immigration Fournier enables William Wood to speak from the grave in a way he was unable to speak in life about himself his relationships with others and his relationship with the world **The Lost**

Wimbush and funded by the Lilly Endowment It brings together scholars and experts sixty eight in all from a wide range of academic and artistic fields and disciplines including ethnography cultural history and biblical studies as well as art music film dance drama and literature The focus is

on the interaction between the people known as African Americans and that complex of visions rhetorics and ideologies known as the Bible As such the book is less about the meaning s of the Bible than about the Bible and meaning s less about the world s of the Bible than about how worlds and the Bible interact in short about how a text constructs a people and a people constructs a text It is about a particular sociocultural formation but also about the dynamics that obtain in the interrelation between any group of people and sacred texts in general Thus African Americans and the Bible provides an exemplum of sociocultural formation and a critical lens through which the process of sociocultural formation can be viewed

Goldstein, 2022-02-05 On January 6 2021 white supremacists Christian nationalists and other supporters of President Donald Trump stormed the US Capitol in an attempt to overturn the results of the 2020 presidential election The insurrection was widely denounced as an attack on the Constitution and the subsequent impeachment trial was framed as a defense of constitutional government What received little attention is that the January 6 insurrectionists themselves justified the violence they perpetrated as a defense of the Constitution after battling the Capitol police and breaking doors and windows the mob marched inside chanting Defend your liberty defend the Constitution In Real Americans National Identity

Violence and the Constitution Jared A Goldstein boldly challenges the conventional wisdom that a shared devotion to the Constitution is the essence of what it means to be American In his careful analysis of US history Goldstein demonstrates the well established pattern of movements devoted to defending the power of dominant racial ethnic and religious groups that deploy the rhetoric of constitutional devotion to express their national visions and justify their violence Goldstein describes this as constitutional nationalism an ideology that defines being an American as standing with and by the Constitution This history includes the Ku Klux Klan s self declared mission to protect and defend the Constitution of the United States which served to justify its campaign of violence in the 1860s and 1870s to prevent Black people from exercising the right to vote Protestant Americans who felt threatened by the growing population of Catholics and Jews and organized mass movements to defend their status and power by declaring that the Constitution was made for a Protestant nation native born Americans who resisted the rising population of immigrants and who mobilized to exclude the newcomers and their alien ideas corporate leaders arguing that regulation is unconstitutional and un American and Timothy McVeigh who believed he was defending the Constitution by killing 168 people with a truck bomb Real Americans National Identity Violence and the Constitution reveals how the Constitution as the central embodiment and common ground of American identity has long been used to promote conflicting versions of American identity and to justify hatred violence and exclusion **Representative**
