Lost Without the River Barbara Hoffbeck
Scoblic, 2025-07-30
Lost Without the River is an elegantly wrought memoir of resilience, courage, and reinvention. A portrait of nature at its most beautiful and demanding, it is the story of a girl whose family struggled against Depression-era hardship and personal tragedy to carve out a small farm in rural South Dakota. The youngest of seven, Barbara wrestles against the expectations of her family, the strictures of the church, and the limits imposed by a male-dominated culture. Eager for adventure, she leaves the farm first for the Peace Corps and ultimately for the unknown environs of Manhattan's Upper East Side, but she never truly escapes. Lost Without the River demonstrates the emotional power that even the smallest place can exert and the gravitational pull that calls a person back home.

Becoming African in America James Sidbury, 2007-09-27
The first slaves imported to America did not see themselves as African but rather as Temne, Igbo, or Yoruban. In *Becoming African in America*, James Sidbury reveals how an African identity emerged in the late eighteenth-century Atlantic world, tracing the development of African from a degrading term connoting savage people to a word that was a source of pride and unity for the diverse victims of the Atlantic slave trade. In this wide-ranging work, Sidbury first examines the work of black writers such as Ignatius Sancho in England and Phillis Wheatley in America, who created a narrative of African identity that took its meaning from the diaspora, a narrative that began with enslavement and the experience of the Middle Passage, allowing people of various ethnic backgrounds to become African by virtue of sharing the oppression of slavery. He looks at political activists who worked within the emerging antislavery moment in England and North America in the 1780s and 1790s; he describes the rise of the African church movement in various cities, most notably the establishment of the African Methodist Episcopal Church as an independent denomination and the efforts of wealthy sea captain Paul Cuffe to initiate a black-controlled emigration movement that would forge ties between Sierra Leone and blacks in North America, and he examines in detail the efforts of blacks to emigrate to Africa, founding Sierra Leone and Liberia. Elegantly written and astutely reasoned, *Becoming African in America* weaves together intellectual, social, cultural, religious, and political threads into an important contribution to African American history, one that fundamentally revises our picture of the rich and complicated roots of African nationalist thought in the U.S. and the black Atlantic.
