One Crew: The RNLI's Official 200-Year History Helen Doe,2024-02-15 This book takes a fresh look at the creation of the Institution and its early founders and examines how it has responded over 200 years **Ships Monthly** ,2005 **Mr Price 27 Years with the RNLI** Chris Price,2020-05-10 Mr Price Have you ever felt vulnerable near the sea top of a cliff drifting off the beach or boating in bad weather wind waves and tide Running through your mind will be the prospect of a disaster that sudden realisation that the outdoors is so much bigger than you are There could quickly come a moment when you are desperate for help Risk is no longer fun it s got serious That moment of acute consciousness is when you need the likes of Mr Price The British people inhabiting this island have a passion for the sea In summer months we flock to the coast some venture into the waves some need to go beyond Over generations this maritime adventure has taken us to far lands and has given this nation its global reputation as a sea faring nation This has come at a cost Charts of the British coast show the marks of wrecks that each tell their own story of weather misadventure and misfortune Graveyards in these areas sometimes help tell the grizzly tale of lives ended in such disasters but for so many more there is no mark on land for those lost to the seas Back in the early 19th Century when our nation depended so much on nautical supply lines there were an average of 1800 shipwrecks a year Sir William Hillary set out a plan for a large body of men to be trained and ready to help save lives at sea And so in 1824 was born the Royal National Lifeboat Institution If you have visited the coast you will probably have seen the reassuring presence of those blue and orange craft that you had seen on telly rescuing lives and craft It s the RNLI manifest in its lifeboats crew wrapped in high vis oilies and life jackets helmeted anonymous These men and women all volunteers represent the bravest of our nation As we might pray to be lifted from the worst of the weather and the sea these people respond to the maroon tog up and set off into the worst of it The autobiographical account of Mr Price will take you with them out into the face of danger Chris Price a craftsman and highly respected professional out in the gun trade provides tantalisingly just sufficient insight into his private life to help us understand the motivations and relationships that hang behind the lifeboatman Then it s all about the team The ups and downs of progressing through the ranks eventually to be called by the skipper to join the crew on a shout It s written in Chris s own voice you will get to know this remarkable character well on and off the boat The selected stories of just some of his such shouts reveal the true picture of what goes on aboard a lifeboat on operations The people their friendships and the utter reliance on each other to be able to do what they do The weather the sea sickness the routines the exhaustion The sense of achievement in a successful rescue and the

numbing emotions of body recovery You will be gripped as you travel with them The excitement will be tangible you will smell the diesel and the sick You will be part of the team on board and with them you will laugh and cry At the end of each chapter you will be exhausted Mr Price is a read for everyone The life lessons flood out on every page Only very few books convey the power of relationships and bonds that exist in small teams under pressure this is one of them For seafarers it is a cautionary tale for landlubbers it is a glimpse into the perils of the sea For all it is the story of real people putting themselves at huge risk to help others It is spellbinding and an emotional roller coaster Simon R West OBE MA *Sea Breezes* ,1929

Lost Off Trevose Brian French,2011-02-24 The ship that will not obey the helm must obey the rocks Trevose Head the land mass jutting out into the Atlantic from North Cornwall s shore has been called the Lizard of the North Coast This beautiful but inhospitable coast has seen many disasters over the centuries from ocean going sailing ships blown off course to coastal vessels bound for Wales and the Bristol Channel foundering and colliding and colliers blowing up Both world wars also saw intense activity off Trevose as German U boats attempted to prevent supplies from reaching the UK The torpedoing of HMS Warwick in February 1944 deeply affected the whole community This illustrated history reveals the many shipwrecks to plague the notorious Trevose Head and considers the development of safety at sea starting with the erection of Trevose Lighthouse in 1857 a project strenuously opposed by most seafarers at the time as it was believed that lighthouses attracted pirates like moths to a flame A must for all shipwreck and local historians and those with a love of the Cornish coastline
