**Spare Rib**, 1991 Postmodernism and The Other Ziauddin Sardar, 1998 Postmodernism has often been

presented as a new theory of liberation that promotes pluralism and gives representation to the marginalised peoples of the non west and other cultures In this major assessment of postmodernism from a non western perspective Ziauddin Sardar offers a radical critique of this view Covering the salient spheres of postmodernism from architecture film television and pop music to philosophy consumer lifestyles and new age religions Sardar reveals that postmodernism in fact operates to further marginalise the reality of the non west and confound its aspirations By tracing postmodernism's roots in colonialism and modernity Sardar demonstrates that the dominant contemporary intellectual fashion peddling an insidiously oppressive and subtle revisionism is the most comprehensive onslaught on the non west ever experienced In stern retort the author offers ways in which the peoples of the non west can counter the postmodern assault and survive with their identities histories and cultures intact
