Asia Pacific some top Asian scholars on EU Asian relations were brought together to debate the strategies of individual Asian countries towards the EU and evaluate the EU's actions in the region. Together they aimed to establish some common rules for explaining Asian countries' strategies towards the EU after in-depth study of the actions of individual countries in their bilateral relations with the EU. Worldwide more people are on the move now than ever before, yet many refugees and migrants face poorer health outcomes than the host populations. Addressing their health needs is therefore a global health priority and integral to the principle of the right to health for all. The key is to strengthen and maintain health systems by ensuring that they are refugee and migrant sensitive and inclusive. Health outcomes are influenced by a whole host of determinants. However, refugees and migrants face additional determinants such as precarious legal status, discrimination, social, cultural, linguistic, administrative and financial barriers, lack of information about health entitlements, low health literacy and fear of detention and deportation. This groundbreaking publication outlines current and future opportunities and challenges and provides several strategies to improve the health and well-being of refugees and migrants. It is an advocacy tool for national and international policy makers involved in health and migration. Evidence on the health of refugees and migrants remains fragmented; comparable data across countries and over time are urgently needed to track progress towards the health-related United Nations Sustainable Development Goals. With only 8 years until the 2030 target date to transform our world, the time to act is now. *Migration, Health and Survival* Frank Trovato, 2017-11-24

Publications in this field have in general been based predominantly on the experiences of individual national settings. *Migration, Health and Survival* offers a comparative approach bringing together leading international scholars to provide original works from the United States, Canada, Australia, France, Germany, England and Wales, Norway, Belgium and Italy. *India Migration Report 2021* S.
