My Journey Behind The Veil Conversations With Muslim Women:

My Journey Behind the Veil Kay Rasool, 2002 Contrary to popular belief the veil is not always a symbol of oppression For many women the veil is an expression of individuality and pride and for others it represents a statement of religious identity that embodies a set of beliefs Drawing on the lives of women in Australia India and Pakistan *My Journey Behind the Veil* provides portraits of Muslim women from diverse backgrounds and includes a revealing interview with former Pakistani Prime Minister Benazir Bhutto

Great Feminist Denial Monica Dux, Zora Simic, 2008-09-01 What the hell happened In *The Great Feminist Denial* the authors talk with women feminists and non feminists young and old famous and not famous child free and with child and use their responses as a starting point from which to refocus the key debates Dux and Simic argue that ultimately feminism is still necessary for everyday life Even the most cursory glimpse at the social and cultural landscape suggests an urgent need for a politics that identifies inequalities differences and strengths specific to women as a sex *The Great Feminist Denial* puts an ailing feminist past to rest and proposes a way forward that offers young women of today a new way of calling themselves feminists

South Asian Diaspora Narratives Amit Sarwal, 2017-05-03 This book analyses the metaphysical and poetical notions and the processes of rooting into a culture and routing out of a culture in the context of South Asian diaspora in Australia These diasporic narratives are often characterised by bifurcated and dislocated identities that exist in a liminal space in between two identities two cultures and two histories Yet home remains through acts of imagination remembering and re creation an important reference point The author argues that a clearer notion of politics of location is required to distinguish between the different kinds of dislocation the immigrants suffer both psychologically and sociologically The diaspora in Australia is an under studied topic and this book fills a lacuna in South Asian diaspora studies by analysing and calling upon a wide range of works in this field from historical anthropological sociological cultural and literary studies

From Behind the Veil: A Hijabi's Journey to Happiness Farheen Khan, 2018-10-09 Farheen Khan was the victim of an Islamophobic attack by a stranger in a residential apartment building in Toronto She managed to elude her attacker but the assault on her body had only just begun For fear of dishonoring her family in the South Asian and Muslim community Farheen didn't report the incident Internalizing this experience so deeply sent her body into an allergic overdrive resulting in fatal anaphylactic shock Being unable to consume entire food groups gave her an insight into how a third of the people on earth are unable to eat for a very different reason poverty and food insecurity Despite her allergies Farheen worked tirelessly to make a difference locally on building the foundation for the Muslim social services sector in her city From the first lick of soy pudding to despair and back again she realized that not only can we not fight adversity alone we are not expected to This is an honest and candid story about accepting the angels that come in and out of our lives when we need them the most to show us to ourselves as a reflective surface on a dirty wall Sometimes being swept away by a giant wave beyond our understanding can take us to beaches we never knew existed and in losing control we can often gain control of

who we are and what we are really about Today cured of 95 percent of her allergies Farheen has founded and presides over several non profit organizations to help relieve poverty **Bridging Imaginations** Dr Amit Sarwal,2012-02-11 Migration of the South Asian peoples to Australia has resulted in a continually growing and flourishing diaspora one of the most prosperous communities with an ever increasing role and responsibility in all areas of society One of the challenges in writing about the South Asian diaspora in Australia is the nature of the beast the multifarious migration and entry points into Australia range from colonial indentured workers to political asylum seekers to transnational marriages to students and high end professionals How did their journeys and experiences generate bridges that have influenced the historical cultural social and academic perceptions of the ever changing continents It is hoped that this critical anthology will help present a dynamic community in transit and showcase the achievements of the South Asian diaspora during the last decade which have not only made a significant impact on Australia s multicultlural landscape but also furthered South Asian Australian engagement
