My Life In Writing:

How Do I Write My Life Story? Helen McKenna, 2018-01-30 *How Do I Write My Life Story* is the ideal reference guide for anybody wanting to write their life story. It doesn't matter what stage you're at or how little writing experience you have by using the information and tips provided in this book you will be able to write your own autobiography. **Writing Your Life** Patti Miller, 2001 This edition has been expanded and revised throughout with completely new chapters on finding your voice how to write engaging narrative and how to shape memoir including recovery and travel or sojourn memoirs. The passion and delight of life writing is illustrated in addition to an anthology of stories by people who have already been encouraged by Patti Miller's writing techniques. **Your Life as Story** Tristine Rainer, 1998-04-13 In *Your Life As Story* autobiography expert Tristine Rainer explains how we can all find the important messages in our lives. Like Mary Karr or Frank McCourt we can shape those stories into dramatic narratives that are compelling to others. Blending literary scholarship with practical coaching Rainer shares her remarkable techniques for finding the essentials of story structure within your life's scattered experiences. Most important she explains how to treasure the struggles in your past and discover the meaning within those experiences to capture the unique myth at work in your life. [Change Your Life's Direction](#) Jim Taylor, PhD, 2021-05-07 Jim Taylor explores how to harness the four forces that can control our life: inertia and propel our lives in the direction of our OWN choosing: values, self-esteem, ownership and emotions. Many people think of inertia as an object at rest will stay at rest unless a force is exerted on it like a boulder in a field. And people can think of their lives in the same way: static and unmoving. But we aren't stuck in one place as so many express when they are dissatisfied with their lives. Rather our lives are moving swiftly and inexorably along a path driven by powerful forces both past and present that is highly resistant to a change in direction. As a result small forces such as a modest insight or a brief aha moment aren't enough to catalyze significant change in how we think, what we feel or how we act on or react to our world. In fact meaningful change can only occur when forces are applied that are greater than the forces that are already propelling our lives. Seeing our lives from this dynamic perspective is the foundation for understanding what it takes to bring meaningful and long-lasting positive change to our lives. Jim Taylor explores the four forces: values, self-esteem, ownership and emotions that propel our life: inertia which shows itself through the lens with which we view the world, the emotional reactions we have, the actions that we take and the relationships that we create. He then explains how to harness those to our own benefit so that we may steer our lives in the direction of our own choosing rather than allowing our past inertia or outside forces to dictate the direction our lives take. By letting our values guide us, building our self-esteem, taking ownership of our decisions and actions and using our emotions as positive fuel we can break free from our past inertia, take control of our lives and chart a future of meaning, happiness, success and connection with confidence, commitment and courage. **Writing from Within: The Next Generation** Bernard Selling, 2012-05-08 Everybody has something to say. In an age when Twitter blogs and Tumblrs give millions the chance to
