My Of Thanks:

.... *My Thanks to You !* Jack Coppard.,2015-04-02 When starting this story some three years ago I was never sure whether I had the ability or the stomach to awaken all of my past memories but Im glad that I did I am also conscious of the fact that the written word is a very powerful tool and with this in mind I have stuck to the truth however painful at times but equally uplifting and amusing I have tried not to become judge and jury and have been mindful of the fact that most of the people I have written about are dead and therefore unable to defend themselves or give themselves a pat on the back These memories have been written as seen through my eyes only and are as correct as my memory recalls luckily Ive been blessed with a very good memory For those who have followed my story from its start you will recall that my Mother died during the early years of World War Two and that I had always felt that the full details of her passing contained a degree of mystery The family always seemed to keep me in the dark and when the cause of death was revealed to me I understood why **Thank God My Regiment an African One** Clare P. Weaver,2000-03 The diary also provides never before published pictures from wartime Ship Island including photographs of members of Daniels regiment visiting ship captains and Major Francis E Dumas the highest ranking black officer to see combat during the war A superb resource in themselves these photographs will fascinate Civil War enthusiasts The first published personal narrative by a regimental commander of free black troops Thank God My Regiment an African One offers a unique glimpse into the daily lives of white leaders of the earliest black soldiers **A New English Dictionary on Historical Principles** Sir James Augustus Henry Murray,1919 Neuropeptide Receptors as Treatment Targets in Alcohol Use Disorders Abdul Maruf Asif Aziz,2017-08-21 Alcohol use disorder AUD is a complex disorder with multiple pathophysiological processes contributing to the initiation progression and development of the disease state AUD is a chronic relapsing disease with escalation of alcohol intake over time in repeated cycles of tolerance abstinence and relapse and hence it is very difficult to treat There are only a few currently available treatments with narrow efficacy and variable patient response Thus it is important to find new more effective medications to increase the number of patients who can benefit from pharmacological treatment of AUD The research presented in this thesis work focuses on the critical involvement of central neuropeptides in alcohol related behaviors The overall aim was to evaluate the nociceptin orphanin FQ NOP receptor the neuropeptide Y NPY Y2 receptor and the melanin concentrating hormone MCH receptor 1 as novel and potential pharmacological treatment targets for AUD by testing the NOP receptor agonist SR 8993 the NPY Y2 receptor antagonist CYM 9840 and the MCH1 receptor antagonist GW803430 in established animal models In the first study Paper I the novel and selective NOP agonist SR 8993 was assessed in rat models of motivation to obtain alcohol and relapse to alcohol seeking behavior using the operant self administration SA paradigm Firstly treatment with SR 8993 1 mg kg showed a mildly anxiolytic effect and reversed acute alcohol withdrawal induced hangover anxiety in the elevated plus maze EPM Next it potently attenuated alcohol SA and motivation to obtain alcohol in the progressive ratio responding PRR and reduced

both alcohol cue induced and yohimbine stress induced reinstatement of alcohol seeking without affecting the pharmacology and metabolism of alcohol nor other control behaviors To extend these findings SR 8993 was evaluated in escalated alcohol intake in rats Treatment with SR 8993 significantly suppressed alcohol intake and preference in rats that were trained to consume high amounts of alcohol in the two bottle free choice intermittent access IA paradigm SR 8993 also blocked operant SA of alcohol in rats that showed robust escalation in operant alcohol SA following chronic IA exposure to alcohol In the second study Paper II SR 8993 was further evaluated in a model for escalated alcohol intake induced by long term IA exposure to alcohol The effect of previous experience on operant alcohol SA on two bottle free choice preference drinking was evaluated and sensitivity to treatment with SR 8993 was tested in rats selected for escalated and non escalated alcohol seeking behavior We found that rats exposed to the combined SA IA paradigm showed greater sensitivity to SR 8993 treatment In addition acute escalation of alcohol SA after a three week period of abstinence was completely abolished by pretreatment with SR 8993 In the third study Paper III the effects of the novel small molecule NPY Y2 antagonist CYM 9840 were tested in operant alcohol SA PRR which is a model for motivation to work for alcohol and reinstatement of alcohol seeking behavior Treatment with CYM 9840 10 mg kg potently attenuated alcohol SA progressive ratio responding and stress induced reinstatement using yohimbine as the stressor while alcohol cue induced reinstatement was unaffected Moreover a range of control behaviors including taste sensitivity locomotor and pharmacological sensitivity to the sedative effects of alcohol remained unaffected by CYM 9840 pretreatment indicating that its effects are specific to the rewarding and motivational aspects of alcohol intake and related behaviors CYM 9840 also reversed acute alcohol withdrawal induced hangover anxiety measured in the EPM and reduced alcohol intake in the 4 hour limited access two bottle free choice preference drinking model Finally in the fourth study Paper IV the selective MCH1 R antagonist GW803430 was tested in rat models of escalated alcohol intake Pretreatment with GW803430 effective at 10 30 mg kg dose dependently reduced alcohol and food intake in rats that consumed high amounts of alcohol during IA while it only decreased food intake in rats that consumed low amounts of alcohol during IA likely due to a floor effect Upon protracted abstinence following IA GW803430 significantly reduced operant alcohol SA and this was associated with adaptations in MCH and MCH1 R gene expression In contrast GW803430 did not affect escalated alcohol SA induced by chronic alcohol vapor exposure and this was accompanied by no change in MCH or MCH1 R gene expression Overall these results suggest that the MCH1 R antagonist affects alcohol intake through regulation of both motivation for caloric intake and the rewarding properties of alcohol In conclusion our results suggest critical roles for these central neuropeptides in the regulation of anxiety and of alcohol reward making them potential pharmacological targets in the treatment of AUD

Becoming Somebody in Teacher Education Kari Kragh Blume Dahl, 2021-03-01 *Becoming Somebody in Teacher Education* explores the realities of contemporary teacher education in Kenya Based on a long term ethnographic fieldwork it views the teacher training institution as a space to grow become

and be shaped as teachers in complex moral worlds Drawing on a rich conceptual and theoretical vocabulary the book shows how students in these teacher education institutions constantly negotiate and confront the complex constructions of ethnicity gender and class as well as moral religious and academic issues and a lack of resources encountered in the different institutional cultures It outlines a complex array of concerns affecting student teachers that shape what professional becoming means in a stratified and diverse culture This story of the process of growing up and becoming a professional teacher in an African setting will appeal to researchers academics and students in the fields of teacher education organizational studies international education and development social anthropology and ethnography *Managing Stress* Brian Luke Seaward, 2006 This is a comprehensive approach to honouring the integration balance and harmony of mind body spirit and emotions This holistic approach guides readers to greater levels of mental emotional and physical well being

Transport to Destiny Paulette M. Withington, 2002-12-19 Thirty one year old Carol Stivers is tiring of the rat race of modeling and wants to settle down A rush hour fender bender forces Carol Stivers and Jack Reynolds the president of Future Span World Developers to cross paths When she helps him reach his important meeting on time he shows how grateful he really is One of Jack's enemies plots revenge and a near death experience shows Jack a guardian angel Could Carol be the angel he needs to get through the life threatening challenges ahead A tropical escape could answer their questions And a seven day cruise is their ticket to drama and romance as they uncover answers that will unlock their future **Epistemic Stance in English Conversation** Elise Kärkkäinen, 2003-12-19 This book is the first corpus based description of epistemic stance in conversational American English It argues for epistemic stance as a pragmatic rather than semantic notion showing commitment to the status of information is an emergent interactive activity rooted in the interaction between conversational co participants The first major part of the book establishes the highly regular and routinized nature of such stance marking in the data The second part offers a micro analysis of I think the prototypical stance marker in its sequential and activity contexts Adopting the methodology of conversation analysis and paying serious attention to the manifold prosodic cues attendant in the speakers utterances the study offers novel situated interpretations of I think The author also argues for intonation units as a unit of social interaction and makes observations about the grammaticization patterns of the most frequent epistemic markers notably the status of I think as a discourse marker **Scientific American**, 1860 **My**

Lion's Heart Gareth Patterson, 2014-09-15 Environmentalist independent researcher and author Gareth Patterson has spent his entire adult life working tirelessly for the greater protection of African wildlife and more particularly for that of the lion Born in England in 1963 Gareth grew up in Nigeria and Malawi From an early age he knew where his life's path would take him it would be in Africa and his life's work would be for the cause of the African wilderness and its wild inhabitants His is an all encompassing African story From his childhood in West and East Africa to his study of a threatened lion population in a private reserve in Botswana to his work with George Adamson celebrated as the Lion Man of Africa we witness Gareth's

growing commitment to his life's mission. This is nowhere more evident than in his account of his life as a human member of a lion pride experiencing life and death through its eyes as he successfully rehabilitated three famous orphaned lion cubs back into a life in the wilds. At considerable risk to his own personal safety he exposed the sordid canned lion industry in South Africa bringing this shameful practice to international attention. After moving to the Western Cape he took up the fight for the African elephant notably the unique endangered Knysna population and published his astonishing findings in his 2009 book *The Secret Elephants*. Perhaps unsurprisingly given the stressful nature of his work Gareth suffered a massive physical and mental breakdown in his forties which he discusses here for the first time with an openness that underlines his courage. Lesser men might have been broken but his lion's heart fought back and he ultimately overcame his illness. Gareth Patterson's long-awaited autobiography is a moving account of one man's single-minded dedication to the preservation of Africa's wildlife. It is also a stark reminder that if the human race does not want to lose Africa's priceless wild heritage there is no time to waste. The lion is my totem animal and this is the story of my life in Africa for the lion. **The Church Lads'**

Brigade in the Great War Jean Morris, 2015-09-30. It is estimated that around 50,000 Brigade Lads served in the First World War during which many honors and distinctions were awarded. The Brigade contributed two Service Battalions of the King's Royal Rifle Corps whose members were comprised entirely of past and present members of the Church Lads Brigade. These were known as Pals Battalions. The story of the battalion centers around the experiences of eight men who served and some who died in the Battles of The Somme, Arras and The Lys. In the latter half of the nineteenth century influential Christians were worried about the poor spiritual and physical development of young people. It was at that time that Brigade groups began to spring up all over the UK. Walter Mallock Gee who was Secretary of the Junior Branch of the Church of England Temperance Society and a Volunteer Army Officer founded the Church Lads Brigade in 1891. By 1908 the membership of the brigade stood at about 70,000 in 1,300 companies. When the Call to Arms came from Field Marshal Horatio Herbert Kitchener in 1914 thousands of Britain's youth flocked to join the armed forces. Members of the Church Lads Brigade joined up in their droves at recruiting stations all over Great Britain. Two Battalions were formed entirely from serving and ex-members of the Church Lads Brigade. The 16th Service Battalion and later the 19th Service Battalion both sponsored by the Church Lads Brigade became known as The Churchmen's Battalion. In 1914 no one could have imagined the horrendous stories that would unfold from the bloody massacre at so many notorious battles across Belgium and the fields of Flanders: Ypres, Passchendaele, Somme, Arras, Lys and the brutal decimation of the battalion during the hell of the fighting at High Wood. No one could have imagined the discomfort and disease brought on by living in a trench full of water for days on end or over the top through acres of knee-high mud. More than 24 of the Church Lads Brigade were awarded a Victoria Cross for their bravery but by 1918 many of those gallant young Lads would not return home. This is their story. Eccentric Spaces, Hidden Histories David Bialock, 2007-02-01 After The Tale of Genji c 1000 the greatest work of classical Japanese literature is the historical narrative The Tale of the Heike 13th 14th centuries In addition to opening up fresh perspectives on the Heike narratives this study also draws attention to a range of problems centered on the interrelationship between narrative ritual space and Japan's changing views of China as they bear on depictions of the emperor's authority warriors and marginal population going all the way back to the Nara period By situating the Heike in this long temporal framework the author sheds light on a hidden history of royal authority that was entangled in Daoist and yin yang ideas in the Nara period practices centered on defilement in the Heian period and Buddhist doctrines pertaining to original enlightenment in the medieval period all of which resurface and combine in Heike's narrative world In introducing for the first time the full range of Heike narrative to students and scholars of Japanese literature the author argues that we must also reexamine our understanding of the literature ritual and culture of the Heian and Nara periods

The Accountability of Armed Groups under Human Rights Law

Katharine Fortin, Foreword by Andrew Clapham, 2017-08-11 Today the majority of the armed conflicts around the world are fought between States and armed groups rather than between States. This changed conflict landscape creates an imperative to clarify the obligations of armed groups under international law. While it is generally accepted that armed groups are bound by international humanitarian law, the question of whether they are also bound by human rights law is controversial. This book brings significant new understanding to the question of whether and when armed groups might be bound by human rights law. Its conclusions will benefit international law academics, legal practitioners and political scientists and anthropologists working on issues related to rebel governance and civil wars. This book addresses the debate on this topic by employing a theoretical, historical and comparative analysis that spans international humanitarian law, international criminal law and international human rights law. Embedding these different perspectives in public international law, this book brings several key points of clarification to the legal framework. Firstly, the book draws upon social science literature on armed conflict to present a new viewpoint on the role that human rights law plays vis-à-vis international humanitarian law in non-international armed conflicts. Secondly, the book sheds light on the circumstances in which armed groups acquire obligations under human rights law. It brings illumination to these topics by combining historical and comparative research on belligerency, insurgency and international humanitarian law with a theoretical analysis of legal personality under international law. In the final part of the book, the author tests the four most utilised theories of how armed groups are bound by human rights law, examining whether armed groups can be bound by virtue of: i) treaty law; ii) control of territory; iii) international criminal law; and iv) customary international law. In the book's conclusions, the author presents final remarks that are designed to provide concrete guidance on how the issue of armed groups and human rights law can be dealt with more thoroughly in practice.

Practical Software Estimation M. A. Parthasarathy, 2003-02-25 A clearly written book that is a useful primer for a very complicated set of topics. Capers Jones, Chief Scientist Emeritus, Software Productivity Research LLC. Practical Software Estimation brings together today's most valuable tips, techniques and best practices for accurately estimating software project efforts, costs and schedules. Written by a leading expert in the field, it addresses the full spectrum of real-world challenges faced by those who must develop reliable estimates. M. A. Parthasarathy draws on the immense experience of Infosys, one of the world's largest and most respected providers of IT-enabled business solutions, to bring you the only book with detailed guidance on estimating insourced and outsourced software projects as well as projects that blend both approaches. He demonstrates how to successfully utilize Function Point (FP) methods, the industry's leading estimation model. Then, using real case studies, he systematically identifies pitfalls that can lead to inaccurate estimates and offers proven solutions. Coverage includes: How to estimate all types of software projects, including fresh development, reengineering and maintenance; How to incorporate the impact of core project elements on estimates: scope, environment, experience and tools; FP analysis from start to finish: data and transaction functions, general system characteristics and more; FP methods for
