My Own Story Read Alones:

By Touch Alone Vanessa Warne, Vanessa Kay Warne, 2025-07-16 *By Touch Alone* demonstrates how reading by touch not only changed the lives of nineteenth century blind people but also challenged longstanding perceptions about blindness and reading. Over the course of the nineteenth century thousands of blind people learned how to read by touch. Using fiction, essays, letters, and speeches authored by blind readers, *By Touch Alone* traces the ways in which literacy changed blind people's experiences of education, leisure, spirituality, and social engagement. Analyzing records of activism and innovation as well as frustration, this study documents the development of an inkless book culture shaped by blind readers' preferences and needs. While *By Touch Alone* features the writing and ideas of an understudied community of nineteenth century blind authors, innovators, and activists, it also engages the work of sighted authors such as George Eliot and Rudyard Kipling to explore the culture-wide effects of reading by touch. The emergence of a new category of readers who did not rely on sight to read prompted sighted people to reimagine blindness and adopt more progressive attitudes toward blind people. In our own era, one characterized by the increasing digitization of our reading lives, Vanessa Warne's exploration positions scholars and blind readers to navigate present-day developments and shape the future of their reading lives. A carefully contextualized study of how reading by touch shaped Victorian culture, *By Touch Alone* adds new chapters to the history of disability and reading.

Starting Over Judith Newton, 2012-10-16 For more than a decade, Judith Newton has been at the forefront of defining and promoting materialist feminist criticism. *Starting Over* brings together a selection of her essays that chart the establishment of feminist literary criticism in the academy and its relation to other forms of cultural criticism, including Marxist, post-Marxist, new historicist, and cultural materialist approaches, as well as cultural studies. The essays in *Starting Over* have functioned as exemplars of interdisciplinary thinking, mapping out the ways in which reading strategies and the constructions of history, culture, identity, change, and agency in various materialist theories overlap, and the ways in which feminist materialist work both draws upon, revises, and complicates the vision of nonfeminist materialist critiques. They are shaped by an awareness that public knowledge is always informed by the so-called private realm of familial and sexual relations, and that cultural criticism must bring together investigations of daily behaviors, economic and social relations, and the dynamics of race, class, gender, and sexual struggle. *Starting Over* is a brilliant synthesis of literature, history, anthropology, the many influential trends in contemporary theory, and the politics of feminism. **I STAND ALONE** Jason

Medina, 2024-04-25 For eons, prophecies of disasters leading to the end of the world failed to come to fruition. That changed when an enormous asteroid struck the planet, causing numerous natural disasters which left much of civilization in utter ruins. Almost two decades later, barbaric people called Nomads now roam the decimated and virtually abandoned cities during the daylight. The Power of Story Joan Wink Ph.D.,2017-11-07 Through this book readers will discover that stories can move the human heart and head in ways that research cannot Stories bring together readers writers librarians teachers students and families in the libraries of today and will continue to do so tomorrow Written for all those lovers of literacy this book links libraries and literacies through the power of stories The book is not filled with data in the form of pie charts graphs and tables Rather the truth of the research is grounded in authentic stories that reflect not only the interpretation of data but also the transformative nature of literacies and libraries The author's primary goal is that readers will come to value and use storytelling in their own professional and personal lives to explain and expand on complex concepts and to make information more accessible for all The book begins by presenting anecdotes and the author's personal story to lay the foundation for what literacies are and what literacy is not An activity Spiral of Literacy allows readers to reflect on their own literacies Chapters that follow each begin with a story that sets the theoretical foundation Each chapter concludes with an action section that demonstrates how to turn theory to practice whether you are in a library a classroom or at home A final chapter envisions what libraries might look like in 10 years through interviews with librarians teachers and others interested in literacy
