Seeking Passage Rebecca A. Martusewicz,2001 In this eloquent collection of essays Rebecca Martusewicz positions a philosophy of education that relies on what transpires between teachers and learners in various contexts She thoughtfully analyzes how in the relationship between teachers and learners all kinds of ideas beliefs interpretations and meanings are generated as a result of potent generative forces that depend as she demonstrates using post structuralist theories on difference as their fuel Ultimately she argues that to become educated requires an attention to the welfare of self and others and a willingness to confront and shift one s own habits practices and beliefs for that purpose This work contains clear translations of post structuralist theories such as those of Deleuze Serres and Derrida well written essays that blend good storytelling theory and ethical analysis to reconceptualize education as the means toward social justice and a clear argument for the drawing together of analyses of difference introduced by post structuralism with attention to ethics and social justice as they apply to education
