My Grandma Has Black Hair:

My Grandma Has Black Hair Mary Hoffman, 1988 A child talks about her grandmother who is definitely not like the grannies in storybooks *The Psychology of Grandparenthood* Peter K. Smith, 2017-09-29 The majority of people will now spend about one third of their lives as grandparents yet developmental psychologists have largely ignored the nature of the grandparental role and the influence which grandparents can have on grandchildren Originally published in 1991 this book redresses the balance and uses life span evolutionary and psychodynamic theoretical frameworks to provide a comprehensive analysis of the phenomenon of grandparenthood from cross cultural perspectives Much recent work in developmental psychology has disregarded the extended family in favour of the two generational nuclear family of parents and children But grandparents do have a significant role in family relationships and children s development This volume contains detailed discussion of intergenerational transmission of parenting skills cooperation and conflict in three generational families and the ways in which grandparents and grandchildren perceive one another The importance of considering social and cultural contexts of development applies to grandparents just as much as to other areas of human development Kinds of family structure social policies regarding employment health and housing attitudes to marriage and even particular historical events all have an impact on the position and role of grandparents and on stereotypes of old age These factors vary considerably from country to country Our understanding of grandparenthood can only be enriched by learning about the variety of ways in which it is expressed in different cultural settings Most previous research has been confined to the USA This book is truly international containing contributions from Britain Canada Finland Italy the Netherlands Poland West Germany and the USA International comparisons enable us to see which elements are essential to grandparenthood and which are culture dependant In most Western countries the population is ageing and this sort of study is becoming vitally important The Psychology of Grandparenthood is required reading for anybody who is professionally involved with the elderly and for psychologists interested in development the life span and family systems *The Man She Married* Cathy Lamb, 2018-10-30 In Cathy Lamb s gripping and thought provoking novel a woman whose memory is shattered must piece together her husband s secrets and reevaluate her life love and relationships When Natalie Shelton thinks back to how things were before the car accident she remembers a great marriage She and her husband Zack seem as strong and dependable together as the houses he builds They live in Portland Oregon and Natalie is co owner of a successful accounting firm They re happy she s almost sure of it Yet as Natalie lies trapped in a coma unable to communicate though aware of everything around her she realizes that her husband is hiding something Zack has always been reticent about his past which she attributed to an unhappy childhood Now the strange calls he s receiving the apologies when he thinks she can t hear him and her fragmented memories from the morning of the accident suggest a deeper secret When she finally awakens Natalie is determined to find out the truth Sorting through clues as her brain heals she realizes she has a rare opportunity to reexamine the life she s

made and the man she's made it with. But as answers come to light, she faces surprising heartrending decisions as well as a danger that could upend her world once again as Zack's past finally catches up with them.

Long Trip Home Robert Temple Frost, 2013-05 Akoni and Micah are two brothers who live in Lahaina on the Hawaiian island of Maui. Akoni is the older and has a standup paddleboard that Micah likes to ride on while his brother paddles. After teaching Micah to paddle, Akoni has an idea to modify an ocean going kayak into a standup paddle kayak so the two brothers can paddle across the seven mile wide channel that separates Maui from Molokai where their grandmother lives. With their kayak modified and their parents' permission granted, the boys embark on their journey. Helped along their way by gentle trade winds, the brothers encounter playful dolphins and have a too close encounter with an enormous passenger liner. However, they arrive on Molokai safely and are warmly welcomed by their grandmother. Visiting their grandmother on Molokai, the boys learn things about their family and their Hawaiian heritage they'd never known before. Inspired by their newfound understanding of their familial and cultural heritage, they strike out across the channel for home. But this time, the going is treacherous. Strong winds and currents force them out into open sea. The boys' pleasant journey becomes a struggle for survival as Micah and Akoni unexpectedly find themselves on a Long Trip Home. Although a mainlander author, Robert Temple Frost loves Hawaii and Maui in particular. Now retired after 37 years as a research lab administrator, Robert is the author of two previous self-published works: *The Knowers First Move* and *The Knowers Second Move*. His first novel, *Okinawan Adventure*, was published by Charles E Tuttle back in 1958. Photo of Ryan Feinan on Front cover taken by author. Publisher's website: <http://sbpra.com/RobertTempleFrost>

School for Spirits: Archangel Undercover Aron Lewes, 2020-01-04 Sandalphon isn't the most popular Archangel or the handsomest or even the strongest, but he might be the kindest. For seven years, he's watched over his charge, a young woman named Mikayla Frost. He's dried her tears, fulfilled her wishes, and helped her make new friends, but now they're facing a new challenge. Death. Mikayla passes away just after her seventeenth birthday, leaving her beloved grandfather behind. Even in life, Mikayla enjoyed helping people, so spirit school is right up her alley. Her instructor, Sander Phelan, is super cute, but he's hiding a huge secret.

Grandma's Bones - Resilience - The Sequel Sylvia R. Moore, 2023-01-20 About the Book: Failure to remember our past mistakes may lead us to repeat them as history repeats itself over time.
