He and Him Claude Britt, Jr., 2012-08 He and Him is an autobiography dealing with both psychology and archaeology in the author s life He was born during the Great Depression His parents were an Ohio farmerette and a man from the Tennessee mountains who had become an alcoholic on moonshine whiskey It was a dysfunctional family from the start The mom soon developed very serious emotional problems apparently because she wasn t satisfied with the man whom she had married When the author was a six year old boy she told him that she planned to take him and leave his dad However she did the exact opposite and had more kids Upon adding more

offspring to the household the author then seven years old became the victim of terrible physical and emotional abuse as well as complete neglect From the age of seven the author had to essentially raise himself He tried to avoid his parents as much as possible by spending his days in the fields and meadows by himself collecting butterflies pretty rocks and looking for prehistoric Indian arrowheads After finding a few Indian arrowheads on farms in Ohio he started a collection of Indian arrowheads and other artifacts at a very young age His collection eventually turned into a very renowned private museum as he got a little older When the author was almost thirteen years old his parents quit farming and started operating their own country store in a different community Chapter 3 in this book describes life in country stores in Ohio during the 1940s and 1950s The author lived in such a country store environment until he turned eighteen and went away to college He was the first of any of his relatives to ever go away to college His mother furnished him money to attend college but he did it completely on his own with absolutely no family encouragement or support to get a degree From the time that the author started getting educated his mom refused to ever call him by his given name She only referred to him as either He or Him Others in the family soon became full of covetousness towards him because they perceived that he had advantages which they didn't have Competitive jealousy of others in the household mounted their believing that they had to try to outdo the educated member of the family A long drawn out bitter family war against the author ensued Disrespect for the author's higher education continued in later years by not only the third generation but also by in laws who didn't even know the author when he was in college After receiving both a BS degree and an MA degree in geology with a master's thesis dealing with archaeology of Archaic Indian sites near his hometown the author took a temporary summer job as a national park ranger at Canyon de Chelly National Monument at Chinle Arizona Canyon de Chelly is located in the center of the vast Navajo Indian Reservation Getting to live and work in such a beautiful natural area was like a dream come true That first summer's work at Canyon de Chelly motivated the author to eventually work as a seasonal park ranger in six other national parks and monuments After working at Canyon de Chelly for one summer the author ended up going back to Arizona where he lived for ten more years He married a woman in Kansas who he hardly even knew then he went to the University of Arizona where he spent two years working towards a PhD degree After that he and his wife spent eight more years back on the Navajo Indian Reservation During those years on the reservation he taught Navajo Indian children on a substitute teaching certificate It was a full time job in the winter Almost all of his students were Navajo Indians He taught all grade levels from kindergarten through high school Chapters 6 7 and 8 of this book are devoted to stories about life in remote areas of the reservation in the 1960s and 1970s At that time the author's doctor and grocery stores were 145 miles from where he lived There we

SEX, DRUGS, ROCK and WAR: The Boomer Generation Daniel Muller, 2023-05-10 We have all heard the nicknames for the current generations in the news Besides the Silent Generation aka The Greatest Generation born before 1946 there are Baby Boomers Generation X Generation Y also known as the Millennials and Generation Z In the past few

years there has been an increasing amount of coverage and discussion about the growing frustration between these generations. Some call it a generational war. Much of the debate has to do with the Boomer generation with younger generations claiming various failures of this generation to provide a world or country that is sustainable and affordable. TV shows, podcasts, newspaper and magazine articles, movies, and social media have increasingly begun analysis and discussion about this war. It is a hot topic and unfortunately becoming more emotional. Most of the analysis and coverage has to do with emerging information about each generation such as wealth accumulation, party affiliation, changing opinions, habits, values, and relationships. Facts and surveys abound discussing all of these aspects of the generations and more. But we all innately understand that generalizations and summaries about the generations can be dangerous and can only tell a part of the story. What is the answer to this generational conflict that is beginning to stress friendships, acquaintances, and even families? How can we diffuse the emotion and get to positive solutions that will help heal the divide? Daniel Muller attempts to understand this growing generational conflict at a more micro level, namely by documenting and sharing the individual life stories of a somewhat random collection of everyday Baby Boomers. Besides their life stories, he relates their opinions about a series of hot topics today, all in an attempt to better understand what linkages may exist between their environment, families, early and mid-life years, and how they think and behave today. SEX, DRUGS, ROCK, and WAR. The Boomer Generation is an enjoyable collection of very diverse life stories. In addition, Muller shares a fascinating analysis of Boomer values and opinions and hypothesizes about the underlying potential causes of the growing conflict between generations. Finally, he shares his suggestions to calm the generational wars.
