and quarrelsomeness He modelled the character of Smelfungus on him The novel was extremely popular and influential and helped establish travel writing as the dominant genre of the second half of the 18th century Unlike prior travel accounts which stressed classical learning and objective non personal points of view A Sentimental Journey emphasized the subjective discussions of personal taste and sentiments of manners and morals over classical learning Throughout the 1770s female travel writers began publishing significant numbers of sentimental travel accounts Sentiment also became a favourite style among those expressing non mainstream views including political radicalism **Letters from France** John Morgan
