Clarke, 2020-03-04 This layered nuanced and focused study of Civil War era writings reveals a popular sense of patriotism and hope in the midst of loss *Journal of American History* The American Civil War is often seen as the first modern war not least because of the immense suffering it inflicted Yet unlike later conflicts it did not produce an outpouring of disillusionment or cynicism in public or private discourse In fact most people portrayed the war in highly sentimental and patriotic terms While scholars typically dismiss this everyday writing as simplistic or naïve Frances M Clarke argues that we need to reconsider the letters diaries songs and journalism penned by Union soldiers and their caregivers to fully understand the war's impact and meaning In *War Stories* Clarke revisits the most common stories that average Northerners told in hopes of redeeming their suffering and hardship stories that enabled people to express their beliefs about religion community and personal character From tales of Union soldiers who died heroically to stories of tireless volunteers who exemplified the Republic's virtues *War Stories* sheds new light on this transitional moment in the history of war emotional culture and American civic life **True Stories of World War 1, Complete** Various, 2016-02-19 World War I WWI or WW1 also known as the First World War or the Great War was a global war centred in Europe that began on 28 July 1914 and lasted until 11 November 1918 More than 70 million military personnel including 60 million Europeans were mobilised in one of the largest wars in history Over 9 million combatants and 7 million civilians died as a result of the war including the victims of a number of genocides a casualty rate exacerbated by the belligerents technological and industrial sophistication and the tactical stalemate caused by trench warfare a grueling form of warfare in which the defender held the advantage It was one of the deadliest conflicts in history and paved the way for major political changes including revolutions in many of the nations involved The war drew in all the world's economic great powers assembled in two opposing alliances the Allies based on the Triple Entente of the United Kingdom British Empire France and the Russian Empire versus the Central Powers of Germany and Austria Hungary Although Italy was a member of the Triple Alliance alongside Germany and Austria Hungary it did not join the Central Powers as Austria Hungary had taken the offensive against the terms of the alliance These alliances were reorganised and expanded as more nations entered the war Italy Japan and the United States joined the Allies while the Ottoman Empire and Bulgaria joined the Central Powers The trigger for the war was the assassination of Archduke Franz Ferdinand of Austria

heir to the throne of Austria Hungary by Yugoslav nationalist Gavrilo Princip in Sarajevo on 28 June 1914 This set off a diplomatic crisis when Austria Hungary delivered an ultimatum to the Kingdom of Serbia and entangled international alliances formed over the previous decades were invoked Within weeks the major powers were at war and the conflict soon spread around the world On 28 July the Austro Hungarians declared war on Serbia and subsequently invaded As Russia mobilised in support of Serbia Germany invaded neutral Belgium and Luxembourg before moving towards France leading the United Kingdom to declare war on Germany After the German march on Paris was halted what became known as the Western Front settled into a battle of attrition with a trench line that would change little until 1917 Meanwhile on the Eastern Front the Russian army was successful against the Austro Hungarians but was stopped in its invasion of East Prussia by the Germans In November 1914 the Ottoman Empire joined the Central Powers opening fronts in the Caucasus Mesopotamia and the Sinai Italy joined the Allies in 1915 and Bulgaria joined the Central Powers in the same year while Romania joined the Allies in 1916 followed by United States in 1917 The Russian government collapsed in March 1917 and a subsequent revolution in November brought the Russians to terms with the Central Powers via the Treaty of Brest Litovsk which constituted a massive German victory After a stunning German offensive along the Western Front in the spring of 1918 the Allies rallied and drove back the Germans in a series of successful offensives On 4 November 1918 the Austro Hungarian empire agreed to an armistice and Germany which had its own trouble with revolutionaries agreed to an armistice on 11 November 1918 ending the war in victory for the Allies By the end of the war the German Empire Russian Empire Austro Hungarian Empire and the Ottoman Empire had ceased to exist National borders were redrawn with several independent nations restored or created and Germany's colonies were parceled out among the winners During the Paris Peace Conference of 1919 the Big Four Britain France the United States and Italy imposed their terms in a series of treaties The League of Nations was formed with the aim of preventing any repetition of such a conflict This however failed with economic depression renewed European nationalism weakened member states and the German feeling of humiliation contributing to the rise of Nazism These conditions eventually contributed to World War II

Civil War Time Cheryl A. Wells, 2012-06-01 In antebellum America both North and South emerged as modernizing capitalist societies Work bells clock towers and personal timepieces increasingly instilled discipline on one's day which already was ordered by religious custom and nature's rhythms The Civil War changed that argues Cheryl A Wells Overriding antebellum schedules war played havoc with people's perception and use of time For those closest to the fighting

the war's effect on time included disrupted patterns of sleep extended hours of work conflated hours of leisure indefinite prison sentences challenges to the gender order and desecration of the Sabbath Wells calls this phenomenon battle time To create a modern war machine military officers tried to graft the antebellum authority of the clock onto the actual and mental terrain of the Civil War However as Wells's coverage of the Manassas and Gettysburg battles shows military engagements followed their own logic often without regard for the discipline imposed by clocks Wells also looks at how battle time's effects spilled over into periods of inaction and she covers not only the experiences of soldiers but also those of nurses prisoners of war slaves and civilians After the war women returned essentially to an antebellum temporal world says Wells Elsewhere however postwar temporalities were complicated as freedmen and planters and workers and industrialists renegotiated terms of labor within parameters set by the clock and nature A crucial juncture on America's path to an ordered relationship to time the Civil War had an acute effect on the nation's progress toward a modernity marked by multiple interpenetrating times largely based on the clock
