Novel Our Time:

Modern American Short Story Sequences J. Gerald Kennedy, 1995-01-27 Originally published in 1995 this book gathers together eleven full length essays on important American short story sequences of the twentieth century The introduction by J Gerald Kennedy elucidates problems of defining the genre cites notable instances of the form such as Sherwood Anderson's Winesburg Ohio and explores the implications of its modern emergence and popularity Subsequent essays discuss illustrative works by such figures as Henry James Jean Toomer Ernest Hemingway Richard Wright William Faulkner Eudora Welty J D Salinger John Cheever John Updike Louise Erdrich and Raymond Carver While examining distinctive thematic concerns each essay also considers implications of form and arrangement in the construction of composite fictions that often produce the illusion of a fictive community *The United Stories of America* Rolf Lundén, 2022-06-08 This book discusses the American short story composite or short story cycle a neglected form of writing consisting of autonomous stories interlocking into a whole The critical work done on this genre has so far focused on the closural strategies of the composites on how unity is accomplished in these texts This study takes into consideration to a greater degree than earlier criticism the short story composite as an open work emphasizing the tension between the independent stories and the unified work between the discontinuity and fragmentation on the one hand and the totalizing strategies on the other The discussion of the genre is illustrated with references to numerous American short story composites *Not Time's Fool* Morley Farrow, 1868 **Lermontov's Narratives of Heroism** Vladimir Golstein, 1998 This is the first study of Russian writer Mikhail Lermontov 1814-41 that attempts to integrate the in depth interpretations of all his major texts including his famous *A Hero of Our Time* the novel that laid the foundation for the Russian psychological novel Lermontov's explorations of the virtues and limitations of heroic self-reliant conduct have subsequently become obscured or misread This new book focuses upon the peculiar disturbing and arguably most central feature of Russian culture its suspicion of and hostility toward individual achievement and self-assertion The analysis and interpretation of Lermontov's texts enables Golstein to address broader cultural issues by exploring the reasons behind the persistent misreading of Lermontov's major works and by investigating the cultural attitudes that shaped Russia's reaction to the challenges of modernity **Encyclopedia of the Novel** Paul Schellinger, 2014-04-08 The Encyclopedia of the Novel is the first reference book that focuses on the development of the novel throughout the world Entries on individual writers assess the place of that writer within the development of the novel form explaining why and in exactly what ways that writer is important Similarly an entry on an individual novel discusses the importance of that novel not only from analyzing the particular innovations that novel has introduced and the ways in which it has influenced the subsequent course of the genre A wide range of topic entries explore the history criticism theory production dissemination and reception of the novel A very important component of the Encyclopedia of the Novel is its long surveys of development of the novel in various regions of

the world **Hemingway and His Conspirators** Leonard J.
