The New York Times Practical Guide to Practically Everything Amy D. Bernstein, Peter W. Bernstein, 2006-10-17 A collection of information on aspects of daily life and a variety of popular topics such as the home health animals nature sports and entertainment **Romancing the Wild** Robert Fletcher, 2014-02-24 The worldwide development of ecotourism including adventures such as mountain climbing and whitewater rafting as well as more pedestrian pursuits such as birdwatching has been extensively studied but until now little attention has been paid to why vacationers choose to take part in what are often physically and emotionally strenuous endeavors Drawing on ethnographic research and his own

experiences working as an ecotour guide throughout the United States and Latin America Robert Fletcher argues that participation in rigorous outdoor activities resonates with the particular cultural values of the white upper middle class Westerners who are the majority of ecotourists Navigating 13 000 foot mountain peaks or treacherous river rapids demands deferral of gratification perseverance through suffering and a willingness to assume risks in pursuit of continuous progress In this way characteristics originally cultivated for professional success have been transferred to the leisure realm at a moment when traditional avenues for achievement in the public sphere seem largely exhausted At the same time ecotourism provides a temporary escape from the ostensible ills of modern society by offering a transcendent wilderness experience that contrasts with the indoor sedentary mental labor characteristically performed by white collar workers
