Nueva Era De Las Desigualdades La:

La nueva era de las desigualdades Pierre Rosanvallon, Jean-Paul Fitoussi, 1997-03-01 Múltiples situaciones lo testimonian sin lugar a dudas las sociedades modernas experimentan un nuevo malestar Sus ciudadanos ya no saben muy bien quiénes son ni quiénes los relaciona a unos con otros Temen vivir mañana peor que hoy y desconfían cada vez más de sus dirigentes Esta crisis no puede reducirse a los meros efectos desestructurantes de la globalización económica Los problemas más visibles proceden es cierto de las conmociones que está entrando Pero hay otro padecimiento más subterráneo que remite a los efectos destructores del individualismo contemporáneo También aparecen nuevas formas de desigualdad Así fallan simultáneamente las instituciones que hacen funcionar el vínculo social y la solidaridad crisis del Estado providencia las formas de la relación entre economía y sociedad crisis del trabajo y las identidades individuales y colectivas crisis del sujeto Por no haber apreciado la importancia de esas conmociones las fuerzas políticas tradicionales se encuentran cada vez más apartadas de la sociedad De allí el riesgo de un aumento de la aceptación social de un populismo perverso o de posiciones francamente autoritarias Qué hacer entonces Entre la resignación paralizante y la utopía que conforta por su efecto de encantamiento sigue siendo posible otro camino Hoy existe espacio para la redefinición de un reformismo radical es decir que retome las cosas desde la raíz Analizando la realidad de las sociedades modernas a partir de la experiencia francesa este libro propone un análisis vigoroso de la creciente desigualdad social y de los caminos posibles para solucionarla **Desigualdad y**

globalización Robert Castel, 2001 **The Oxford Handbook of the Sociology of Latin America** Xóchitl Bada, Liliana Rivera Sánchez, 2021 The essays included in this volume provide both an assessment of key areas and current trends in sociology specifically with regard to contemporary sociology in Latin America as well as a collection of innovative empirical studies The volume serves as an effective bridge of communication allowing sociological academics to mobilize and disseminate research dynamics from Latin America to the rest of the world **Education Systems in Historical, Cultural, and Sociological Perspectives** Daniel Tröhler, Ragnhild Barbu, 2012-03-26 For nearly half a century research on education systems has been increasingly popular However this popularity was long restricted primarily to internationally linked policy makers and education planners often backed up by international organizations such as the OECD but also by governmental or para governmental organizations within the individual countries These institutional affiliations provided education research with a specific character that often centres on notions such as excellence efficiency or standards The specific comparative character of this policy driven research agenda triggered the development of suitable research techniques such as comparative statistics and pertinent sub disciplines such as cognitive psychology Backed up by powerful global institutions this agenda purported to be rather unique and it tended to ignore the cultural complexity of the educational field and those research approaches that address this complexity This volume includes different historical cultural and sociological approaches to the education systems and to questions as to how research on education systems can

be undertaken beyond the parameters of the existing research agenda They demonstrate how pertinent problems of research on education systems can only be tackled taking an international and interdisciplinary approach with regard to both research questions and methods concerning education systems

Persistence and Emergencies of Inequalities in Latin America Pablo Vommaro, Pablo Baisotti, 2022-02-21 This book adopts a multidimensional approach to analyze both the historical and emerging factors that contribute to make Latin America and the Caribbean the most unequal region in the world Social inequality is a historical characteristic of the region but at the beginning of the 21st century a handful of progressive governments seemed to be adopting policies that could reduce this historical trend Many of these efforts however were blocked or reversed by the COVID 19 pandemic which both exposed the persistence of historical trends and contributed to the emergency of new forms of inequality in the region The different chapters in this contributed volume adopt a multidimensional intersectional perspective to analyze both the persistence and the emergency of social devices of production and reproduction of inequalities in the diverse Latin American and Caribbean temporal spatialities The issues analyzed in the different chapters revolve around four main axes a persistence of generational and intergenerational inequalities b structural gender inequality c intertwined social inequalities race class and social structure and c historical and economic dimension of inequality Persistence and Emergencies of Inequalities in Latin America A Multidimensional Approach will be of interest to researchers interested in the study of social inequality and social justice in different fields of the human and social sciences such as sociology political science history economics anthropology and education It will also be a valuable tool for policy makers and social activists engaged in the discussion advocacy and implementation of public policies aimed at reducing social inequalities
