Orique,Rady Roldán-Figueroa,Cynthia Folquer,2024-08-06 The Dominicans in the Americas and the Philippines c 1500 c 1820 is part of a renewal of interest in the global history of the Dominican Order Many of the essays were carefully selected among some of the papers presented at the III International Conference on the History of the Order of Preachers in the Americas a gathering that stands in continuity with the conferences of Mexico 2013 and Bogot 2016 This book the contributors of which are active researchers specializing in the history of the Order of Preachers in Latin America is organized in four parts Women and the Order of Preachers Benditos Bienes Libraries and Material Patrimony Missions Devotional and Daily Life and The Order of Preachers and Their Writings Contributions deal with different subfields including art history gender studies history of the book and intellectual history more broadly Additionally it contains a chapter examining the historiography of the Order of Preachers in Latin America Covering the time range from 1510 to the early nineteenth century the book fills a gap in the historiography of the Order of Preachers in the Americas especially in English language scholarly literature Students of Latin American history the history of Christianity and the history of global Catholicism will surely find the volume to be of great interest *Social Sciences* Lawrence Boudon,Katherine D. McCann,2003-09-01 The one source that sets reference collections on Latin American studies apart from all other geographic areas of the world The Handbook has provided scholars interested in Latin America with a bibliographical source of a quality unavailable to scholars in most other branches of area studies Latin American Research Review Beginning with volume 41 1979 the University of Texas Press became the publisher of the Handbook of Latin American Studies the most comprehensive annual bibliography in the field Compiled by the Hispanic Division of the Library of Congress and annotated by a corps of more than 130 specialists in various disciplines the Handbook alternates from year to year between social sciences and humanities The Handbook annotates works on Mexico Central America the Caribbean and the Guianas Spanish South America and Brazil as well as materials covering Latin America as a whole Most of the subsections are preceded by introductory essays that serve as biannual evaluations of the literature and research under way in specialized areas The Handbook of Latin American Studies is the oldest continuing reference work in the field Lawrence Boudon of the Library of Congress Hispanic Division has been the editor since 2001 and Katherine D McCann has been assistant editor since 2000 The subject categories for Volume 59 are as follows Anthropology Economics Geography Government and Politics International Relations Sociology Electronic Resources for the Social Sciences Maps of Quality of Life in Argentina Since the 19th Century Juan Pablo Celemin,Guillermo Angel Velázquez,2022-10-12 The book is presented as an Atlas where the map plays a fundamental role in the study of quality of life as it shows its progression in Argentina from the 19th to the 21st Century In the book it can be observed how the concept has

evolved along with the dimensions and variables that better represent its spatial distribution This is one of the original points of the book the temporal study of the living conditions of the Argentine population empirically and spatially emphasizing their territorial representation Although the book maintains the same socioeconomic dimensions education health and housing the tour through the different chapters offers a historical window that allows the reader to know what the forms of information collection were like in different historical moments This book is written for geographers and members of the scientific community interested in the study of the well being of the population It also allows us to observe the evolution of the quality of life from the 19th century to the 21st so it may be of interest to historians as well

Transformations and Crisis of Liberalism in Argentina, 1930-1955 Jorge A. Nállim, 2014-08-14 Nállim chronicles the decline of liberalism in Argentina during the volatile period between two military coups the 1930 overthrow of Hipólito Yrigoyen and the deposing of Juan Perón in 1955 While historians have primarily focused on liberalism in economic or political contexts Nállim instead documents a wide range of locations where liberalism was claimed and ultimately marginalized in the pursuit of individual agendas Nállim shows how concepts of liberalism were espoused by various groups who invented traditions to legitimize their methods of political religious class intellectual or cultural hegemony In these deeply fractured and corrupt processes liberalism lost political favor and alienated the public These events also set the table for Peronism and stifled the future of progressive liberalism in Argentina Nállim describes the main political parties of the period and deconstructs their liberal discourses He also examines major cultural institutions and shows how each attached liberalism to their cause Nállim compares and contrasts the events in Argentina to those in other Latin American nations and reveals their links to international developments While critics have positioned the rhetoric of liberalism during this period as one of decadence or irrelevance Nállim instead shows it to be a vital and complex factor in the metamorphosis of modern history in Argentina and Latin America as well

Genoese Trade and Migration in the Spanish Atlantic, 1700-1830 Catia Brilli, 2016-04-26 The Republic of Genoa was once a major commercial power Following the Republic's decline in the seventeenth century Genoese merchants adapted and thrived in the changing Atlantic market Scholars have examined how other foreign merchant groups operated within the Spanish empire but until now no one has examined how the Genoese adapted to the challenges of increasing competition in Atlantic trade Here Catia Brilli explores how Genoese intermediaries maintained a strong presence in Spanish colonial trade by establishing themselves at the port of Cadiz with its monopoly over American trade and through gradually consolidating strong commercial ties with the Río de la Plata Situated at the intersection of European Atlantic and Latin American history and making extensive use of Spanish Italian and Argentinian sources *Genoese Trade and Migration in the Spanish Atlantic 1700-1830* provides a unique perspective on eighteenth and early nineteenth century transatlantic trade

Science and Catholicism in Argentina (1750-1960) Miguel de Asúa, 2022-05-09 *Science and Catholicism in Argentina 1750-1960* is the first comprehensive study on the relationship between science and religion in a Spanish speaking country with a Catholic

majority and a Latin pattern of secularisation The text takes the reader from Jesuit missionary science in colonial times through the conflict ridden 19th century to the Catholic revival of the 1930s in Argentina The diverse interactions between science and religion revealed in this analysis can be organised in terms of their dynamic of secularisation The indissoluble identification of science and the secular which operated at rhetorical and institutional levels among the liberal elite and the socialists in the 19th century lost part of its force with the emergence of Catholic scientists in the course of the 20th century In agreement with current views that deny science the role as the driving force of secularisation this historical study concludes that it was the process of secularisation that shaped the interplay between religion and science not the other way around
