b educate industrial mathematicians to meet the growing demand for such experts c operate on a European scale ECMI is still a young organisation but its membership is growing fast Although it has still to persuade more industrialists to join ECMI certainly operates on a European scale and a flourishing postgraduate programme with student exchange has been underway for some time It is perhaps fitting that the first open meeting of ECMI was held at the University of Strathclyde in Glasgow Glasgow is and was the industrial capital of Scotland and was and arguably still is Britain s second city after London when this volume appears it will have rightly donned the mantle of the cultural capital of Europe

Hybrid Nanofluids for Application in the Chemical and Petroleum Industry Shriram S. Sonawane,Hussein A Mohammed,2024-09-27 Hybrid Nanofluids for Application in the Chemical and Petroleum Industry covers the basics of hybrid nanofluids in heat transfer processes as well as their applications in the chemical and petroleum industries This book begins with a detailed overview of the thermo physical and optical properties of hybrid nanofluids before covering the application of the heat transfer enhancement in heat exchangers CO₂ absorption regeneration and metal extraction stripping operations It also covers the applications of hybrid nanofluids and heat transfer enhancement in the petroleum industry as well as recent advances and challenges involved in nanofluid applications in industrial processes The detailed interrelation of nanofluids properties and performance enhancement mechanisms in the various chemical and petroleum processes are also reviewed This book is written for advanced undergraduate and postgraduate students and researchers in the fields of nanotechnology and chemical engineering executive engineers government workers in manufacturing chemical and biomedical industry or R D laboratories working on nanotechnology and chemical processes Describes numerical and experimental investigations of nanofluids based on hybrid and mono nanoparticles Compares the performance of various nanofluids for solar collectors car radiators industrial heat exchange operations and petroleum industries Includes industrial operation and scale up challenges for nanofluid applications in the industrial process

Uncertainty in the Electric Power Industry Christoph Weber,2006-01-06 Around the world liberalization and privatization in the electricity industry have lead to increased competition among utilities At the same time utilities are now exposed more than ever to risk and uncertainties which they cannot pass on to their customers through price increases as in a regulated environment Especially electricity generating companies have to face volatile wholesale prices fuel price uncertainty limited long term hedging possibilities and huge to a large extent sunk investments In this context *Uncertainty in the Electric Power Industry Methods and Models for Decision Support* aims at an integrative view on the decision problems that power companies have to tackle It systematically examines the uncertainties power companies are facing and develops models to describe them including an innovative approach combining fundamental and finance models for price modeling The optimization of generation and trading portfolios under uncertainty is discussed with particular focus on CHP and is linked to risk management Here the concept of integral earnings at risk is developed to provide a theoretically sound combination of value at risk and profit at risk approaches adapted to real market structures and

market liquidity Also methods for supporting long term investment decisions are presented technology assessment based on experience curves and operation simulation for fuel cells and a real options approach with endogenous electricity prices
