Morte das casas Nuno Ramos, Paulo Venancio Filho, Vilma Sant'Anna Arêas, 2004* **The Senses of Democracy**

Francine R. Masiello, 2018-05-02 In *The Senses of Democracy* Francine R Masiello traces a history of perceptions expressed in literature the visual arts politics and history from the start of the nineteenth century to the present day A wide transnational landscape frames the book along with an original and provocative thesis when the discourse on democracy is altered when nations fall into crisis or the increased weight of modernity tests minds and nerves the representation of our sensing bodies plays a crucial role in explaining order and rebellion cultural innovation and social change Taking a wide arc of materials periodicals memoirs political proclamations and travel logs along with art installations and fiction and focusing on the technologies that supplement and enhance human perception Masiello looks at the evolution of what she calls sense work in cultural texts mainly from Latin America that wend from the heights of romantic thought to the startling innovations of modernism in the early twentieth century and then to times of posthuman experience when cyber bodies hurtle through globalized space and human senses are reproduced by machines Tracing the shifting debates on perceptions *The Senses of Democracy* offers a new paradigm with which to speak of Latin American cultural history and launches a field for the comparative study of bodies experience pleasure and pain over the continental divide In the end sense work helps us to understand how culture finds its location **The Environmental Imaginary in Brazilian Poetry and Art** M.

McNee, 2014-07-10 This study contributes to ongoing discussions on the connections between the environmental imaginary and issues of identity place and nation Utilizing a delimited ecocritical approach McNee puts Brazilian culture through the work of contemporary poets and visual artists into a broader transnational dialogue **Heat and Mass Transfer in Porous Media** J.M.P.Q. Delgado, 2011-10-08 This book *Heat and Mass Transfer in Porous Media* presents a set of new developments

in the field of basic and applied research work on the physical and chemical aspects of heat and mass transfer phenomena in a porous medium domain as well as related material properties and their measurements The book contents include both theoretical and experimental developments providing a self contained major reference that is appealing to both the scientists and the engineers At the same time these topics will encounter of a variety of scientific and engineering disciplines such as chemical civil agricultural mechanical engineering etc The book is divided in several chapters that intend to be a short monograph in which the authors summarize the current state of knowledge for benefit of professionals **Writing by Ear**
