Crowe,Donald M. Ferencz,Narrelle Morris,Diane Orentlicher,Kuniko Ozaki,Christoph Safferling,Franziska Seraphim,Gerry Simpson,Kayoko Takeda,Yuma Totani,Beatrice Trefalt,Sandra Wilson,2020-10-27 The International Military Tribunal for the Far East IMTFE held in Tokyo from May 1946 to November 1948 was a landmark event in the development of modern international criminal law The trial in Tokyo was a complex undertaking and international effort to hold individuals accountable for core international crimes and delivering justice The Tribunal consisted of 11 judges and respective national prosecution teams from 11 countries and a mixed Japanese American team of defence lawyers The IMTFE indicted 28 Japanese defendants amongst them former prime ministers cabinet ministers military leaders and diplomats based on a 55 count indictment pertaining to crimes against peace war crimes and crimes against humanity The judgment was not unanimous with one majority judgment two concurring opinions and three dissenting opinions The trial and the outcome were the subject of significant controversy and the Tribunal's files were subsequently shelved in the archives While its counterpart in Europe the International Military Tribunal IMT at Nuremberg has been at the centre of public and scholarly interest the Tokyo Tribunal has more recently gained international scholarly attention This volume combines perspectives from law history and the social sciences to discuss the legal historical political and cultural significance of the Tokyo Tribunal The collection is based on an international conference marking the 70th anniversary of the judgment of the IMTFE which was held in Nuremberg in 2018 The volume features reflections by eminent scholars and experts on the establishment and functioning of the Tribunal procedural and substantive issues as well

as receptions and repercussions of the trial **Pilgrims in Medicine: Conscience, Legalism and Human Rights** Thomas Alured Faunce, 2005-01-01 This arrestingly novel work develops a normative synthesis of medical humanities virtue ethics medical ethics health law and human rights It presents an ambitious complex and coherent argument for the reconceptualisation of the doctor patient relationship and its regulation utilising approaches often thought of as being separate if not opposed virtue based ethics and universal human rights The case is argued gracefully with moderation but also with respect for opposing positions The book s analysis of the foundational professional virtue of therapeutic loyalty is an original departure from the traditional discourse of patient autonomy and the ethical and legal duties of the medical practitioner The central argument is not merely presented as bookends in the introduction and conclusion It is cogently represented in each chapter and section and measured against the material considered A remarkable feature is the use of aptly selected canonical literature to inform the argument These references run from Hesse s *The Glass Bead Game* in the abstract to Joyce s *Ulysses* in the conclusion They include excerpts from and discussion about Bergman Borges Boswell Tolstoy de Beauvoir Chekhov Dostoevsky Samuel Johnson Aristotle Orwell Osler Chaucer Schweitzer Shakespeare Thorwalds Kafka and William Carlos Williams Such references are used not merely as an artistic and decorative leitmotif but become a critical narrative element and another complex and rich layer to this work The breadth and quality of the references are testimony to the author s clear understanding of the modern law and literature movement This work provides the basis of a medical school course As many medical educators as possible should also be encouraged to read this work for the insights it will give them into using their own personal life narratives and those of their patients to inform their decision making process This thesis will also be of value to the judiciary whose members are often called upon to make normatively difficult judgments about medical care and medical rules The human rights material leads to a hopeful view of an international movement toward a universal synthesis between medical ethics and human rights in all doctor patient relationships *Making Modern Medical Ethics* Robert Baker, 2024-02-20 The little known stories of the people responsible for what we know today as modern medical ethics In *Making Modern Medical Ethics* Robert Baker tells the counter history of the birth of bioethics bringing to the fore the stories of the dissenters and whistleblowers who challenged the establishment Drawing on his earlier work on moral revolutions and the history of medical ethics Robert Baker traces the history of modern medical ethics and its bioethical turn to the moral insurrections incited by the many unsung dissenters and whistleblowers African American civil rights leaders Jewish Americans harboring Holocaust memories feminists women and Anglo American physicians and healthcare professionals who were veterans of the World Wars the Cold War and the Vietnam War The standard narrative for bioethics typically emphasizes the morally disruptive medical technologies of the latter part of the twentieth century such as the dialysis machine the electroencephalograph and the ventilator as they created the need to reconsider traditional notions of medical ethics Baker however tells a fresh narrative one that has historically been neglected e g the story of the medical

veterans who founded an international medical organization to rescue medicine and biomedical research from the scandal of Nazi medicine and also reveals the penalties that moral change agents paid e g the stubborn bureaucrat who was demoted for her insistence on requiring and enforcing research subjects informed consent Analyzing major statements of modern medical ethics from the 1946 1947 Nuremberg Doctors Trials and Nuremberg Code to A Patient s Bill of Rights Making Modern Medical Ethics is a winning history of just how respect and autonomy for patients and research subjects came to be codified International Criminal Law, Volume 3: International Enforcement M. Cherif Bassiouni, 2008-12-31 Volume 3 addresses the direct enforcement system namely international criminal tribunals how they came about and how they functioned tracing that history from the end of WWI to the ICC including the post WWII experiences They address the IMT IMTFE ICTY ICTR the mixed model tribunals and the ICC It also contains a chapter which addresses some of the problems of the direct enforcement system namely the general procedural evidentiary and sanctions parts of ICL which is largely made of what is contained in the statutes of the tribunals mentioned above as well as the jurisprudence of the established tribunals In addition this volume addresses national experiences with the enforcement of certain international crimes It is divided into 4 chapters which are titled as Chapter 1 History of International Investigations and Prosecutions International Criminal Accountability International Criminal Justice in Historical Perspective Chapter 2 International Criminal Tribunals and Mixed Model Tribunals The International Criminal Tribunal for the Former Yugoslavia The International Criminal Tribunal for Rwanda The Making of the International Criminal Court Mixed Models of International Criminal Justice Special Court for Sierra Leone Special Tribunal for Cambodia East Timor Chapter 3 National Prosecutions for International Crimes National Prosecutions for International Crimes National Prosecutions of International Crimes A Historical Overview The French Experience The Belgian Experience The Dutch Experience Indonesia The U S War Crimes Act of 1996 Enforcing ICL Violations with Civil Remedies The Case of the U S Alien Tort Claims Act Chapter 4 Contemporary Issues in International Criminal Law Doctrine and Practice Command Responsibility Joint Criminal Enterprise The Responsibility of Peacekeepers The General Part Judicial Developments Ne bis in idem Plea Bargains Issues Pertaining to the Evidentiary Part of International Criminal Law Penalties and Sentencing Penalties From Leipzig to Arusha Victims Rights in International Law
