Nurnberg Tribunal Der Sieger:

Reassessing the Nuremberg Military Tribunals Kim C. Priemel, Alexa Stiller, 2012-08-01 For decades the history of the US Military Tribunals at Nuremberg NMT has been eclipsed by the first Nuremberg trial the International Military Tribunal or IMT The dominant interpretation neatly summarized in the ubiquitous formula of Subsequent Trials ignores the unique historical and legal character of the NMT trials which differed significantly from that of their predecessor The NMT trials marked a decisive shift both in terms of analysis of the Third Reich and conceptualization of international criminal law This volume is the first comprehensive examination of the NMT and brings together diverse perspectives from the fields of law history and political science exploring the genesis impact and legacy of the twelve Military Tribunals held at Nuremberg between 1946 and 1949 **Democracy, Nazi Trials and Transitional Justice in Germany, 1945-1950** Devin O.

Pendas, 2020-09-24 Revising our understanding about how transitional justice works this study analyses and compares Nazi trials in post war East and West Germany from 1945 to 1950 to challenge assumptions about the political outcomes of prosecuting mass atrocities *The Execution of Illegal Orders and International Criminal Responsibility* Hiromi

Sato, 2011-02-16 The legal consequence of the superior orders defense has long been debated as one of the major problems in international criminal law Several controversial issues such as the immunity of the state the absolute character of military discipline and immunity on the grounds of mistake of law and or coercion have been complexly interwoven in the debates The Execution of Illegal Orders and International Criminal Responsibility provides a comprehensive portrait of the relevant debates at the international level up to the present analyzes the conflicting views and shows the significance of the development of international rules for the superior orders defense as well as the implication of the fact that issues concerning some detailed or related rules have been left unresolved This study presents to present a new standpoint not only on dealing with the problem of the superior orders defense but also on reconsidering the international stipulation of rulemaking with regard to criminal matters **The Frankfurt Auschwitz Trial, 1963-1965** Devin O. Pendas, 2006

Drawing on a wide range of archival sources this book provides a comprehensive history of the Frankfurt Auschwitz trial

The Politics of International Criminal Justice Ronen Steinke, 2012-05-25 To anyone setting out to explore the entanglement of international criminal justice with the interests of States Germany is a particularly curious exemplary case Although a liberal democracy since 1949 its political position has altered radically in the last 60 years Starting from a position of harsh scepticism in the years following the Nuremberg Trials and opening up to the rationales of international criminal justice only slowly and then mainly in the context of domestic trials against functionaries of the former East German regime after 1990 Germany is today one of the most active supporters of the International Criminal Court The climax of this is its campaigning to make the ICC independent of the UN Security Council a debate in which Germany took a position in stark contrast to the United States This book offers new insight into the debates leading up to such policy shifts Drawing on

government documents and interviews with policymakers it enriches a broader debate on the politics of international criminal justice which has to date often been focused primarily on the United States

The Reparation System of the International Criminal Court Eva Dwertmann, 2010-03-02 When the Rome Statute for the International Criminal Court was adopted in 1998 one of its great innovations was that victims were granted an active role in the proceedings In its early jurisprudence on victims rights the International Criminal Court stated that the success of the Court is to some extent linked to the success of its reparation system This book is among the first to focus on the International Criminal Court's power to order reparations to victims It provides a comprehensive analysis of the legal framework of the reparation system taking into account relevant Court decisions Possibilities for its implementation are drawn up providing potential solutions for its multiple challenges including the distinct asymmetry between the individualized responsibility to provide reparations and the collective nature of the crimes and its consequences With its practical approach this book is particularly valuable for practitioners but also for students and researchers

Victors' Justice Danilo Zolo, 2020-01-28 *Victors' Justice* is a potent and articulate polemic against the manipulation of international penal law by the West combining historical detail juridical precision and philosophical analysis Zolo's key thesis is that contemporary international law functions as a two track system a made to measure law for the hegemony and their allies on the one hand and a punitive regime for the losers and the disadvantaged on the other Though it constantly advertised its impartiality and universalism international law served to bolster and legitimize ever since the Tokyo and Nuremberg trials a fundamentally unilateral and unequal international order

Genocide on Trial Donald Bloxham, 2001 When the Allies decided to try German war criminals at the end of World War II they were attempting not only to punish the guilty but also to create a record of what had happened in Europe This groundbreaking new study shows how Britain and the United States went about inscribing the history of Nazi Germany and the effect their trial and occupation policies had on both long and short term memory in Germany and Britain Donald Bloxham here examines the actions and trials of German soldiers and policemen the use of legal evidence the refractory functions of the courtroom and Allied political and cultural preconceptions of both Germanism and of German criminality His evidence shows conclusively that the trials were a failure the greatest of all crimes against humanity the final solution of the Jewish question was largely written out of history in the post war era and the trials failed to transmit the breadth of German criminality Finally with reference to the historiography of the Holocaust Genocide on Trial illuminates the function of the trials in perpetuating misleading generalizations about the course of the Holocaust and the nature of Nazism

The Birth of the New Justice Mark Lewis, 2014-02-13

Until 1919 European wars were settled without post war trials and individuals were not punishable under international law After World War One European jurists at the Paris Peace Conference developed new concepts of international justice to deal with violations of the laws of war Though these were not implemented for political reasons later jurists applied these ideas to other problems writing new laws and proposing various types of courts to maintain the post World War One political order They also aimed to enhance internal state security address states failures to respect minority rights or rectify irregularities in war crimes trials after World War Two

The Birth of the New Justice shows that legal organizations were not merely interested in ensuring that the guilty were punished or that international peace was assured They hoped to instill particular moral values represent the interests of certain social groups and even pursue national agendas When jurists had to scale back their projects it was not only because state governments opposed them It was also because they lacked political connections and did not build public support for their ideas In some cases they decided that compromises were better than nothing Rather than arguing that new legal projects were spearheaded by state governments motivated by liberal legalism Mark Lewis shows that legal organizations had a broad range of ideological motives liberal conservative utopian humanitarian nationalist and particularist

The International Law Association the International Association of Penal Law the World Jewish Congress and the International Committee of the Red Cross transformed the concept of international violation to deal with new political and moral problems They repeatedly altered the purpose of an international criminal court sometimes dropping it altogether when national courts seemed more pragmatic
