Chronic Illness Ilene Morof Lubkin, Pamala D. Larsen, 2013 The newest edition of best selling Chronic Illness continues to focus on the various aspects of chronic illness that influence both patients and their families Topics include the sociological psychological ethical organizational and financial factors as well as individual and system outcomes This book is designed to teach students about the whole client or patient versus the physical status of the client with chronic illness The study questions at the end of each chapter and the case studies help the students apply the information to real life Evidence based practice references are included in almost every chapter **Pelvic Organ Dysfunction in Neurological Disease**

Clare J. Fowler, Jalesh N. Panicker, Anton Emmanuel, 2010-11-04 *Pelvic Organ Dysfunction in Neurological Disease* describes the neurological control of human bladder bowel and sexual function and then details the dysfunctions which may arise as a consequence of various neurological diseases. Easy to read, the book will be of value to any healthcare professional managing patients in whom pelvic organ functions have been compromised by neurological disease. The book provides a structured approach to present day understanding of the neurological control of pelvic organs and the investigation and management of each type of organ dysfunction. A unique feature of this book is that it addresses the impact of specific neurological disorders on all three functions. The authors have all been associated with the Department of Uro Neurology at the National Hospital for Neurology and Neurosurgery London since it was established 20 years ago. This book is a timely review of their accumulated knowledge and the latest literature.
