Nursing Partnership Judith C. Christensen, 1990-05-01 *Perspectives on Cancer Care* Tonks N. Fawcett, Anne McQueen, 2010-11-11

Perspectives on Cancer Care is a unique collection of insights from contributors based on their specific expertise and experience. It provides a range of perspectives on cancer care to inspire readers and encourage high quality care through an enhanced understanding of patients' needs and carers' skills. The book presents a series of chapters highlighting different circumstances and approaches to the complex reality of cancer care. In each chapter the author presents their own picture of their experience of the individual's needs and the care required to address these needs, illustrating the particular sensitivity, trust, empathy and support required in the care of patients with cancer and their families. The holistic approach to total care is a prominent feature in cancer care and this is illustrated throughout the various chapters. This collection of perspectives on cancer care highlights particular issues in the field, encourages best practice, draws on the expertise of specialist practitioners in the field of cancer care, features a holistic approach to cancer care illustrated through scenarios.

The Collaborative Partnership Approach to Care - A Delicate Balance Laurie N. Gottlieb, RN, MSc(A), PhD, Nancy Feeley, RN, MSc(A), PhD, Cindy Dalton, 2005-11-08

The Collaborative Partnership Approach to Care: A Delicate Balance brings together the insights and discoveries by expert clinicians and teachers who use a collaborative approach to care. The primary focus of this book is on the relationships between professionals and the people they care for, not just between professionals. Based on the McGill Model of Nursing, the authors stress the value of working in collaboration with the client, family or community. Written for nursing students of all levels, it also will be of interest to health care and mental health professionals. Uses a variety of formats to present ideas about collaboration. Describes ideas about collaboration from the perspective of expert clinicians who have been using collaboration as their approach to nursing care. Integrates quotes from interviews with expert clinicians to illustrate ideas about collaboration. Uses examples from clinical practice to help the reader understand how these theoretical ideas are translated into practice. Describes ideas used in teaching students about collaboration. Raises questions that can guide further research in this area.

Public and Community Health Nursing Practice Demetrius James Porche, 2004

Developed as an advanced text for students in public and community health nursing, this book presents a summary of the core functions of population-based practice, emphasizing evidence-based research. Porche, Nursing Research and Evaluation, Louisiana State University Health Sciences Center.

Nursing Models for Nursing Students - E-Book Teresa Chinn, Sally Wilson, 2025-05-19

Welcome to nursing! *Nursing Models for Nursing Students* is part of the New Notes on Nursing series, a series created especially for you, the nursing student at the start of your nursing journey. Nursing models serve as blueprints for delivering high quality, evidence-based care that is patient-centred, culturally competent and ethically sound. As such, they are fundamental to every facet of nursing.

and a good knowledge of them is a requirement for every student nurse This book focuses primarily on how models can support nursing practice From the first steps in your nursing journey to final year and beyond Nursing Models for Nursing Students is your essential guide The New Notes on Nursing series presents key topics in a highly accessible way without making assumptions about your existing knowledge Concise volumes cover critical and emerging areas including cultural competence digital professionalism politics and activism clinical placements and more The aim is to make content engaging and easy to absorb focussing just on what is essential for success on your course Using a relaxed writing style and an all new design these unique books provide personal guidance from experts and students alike So when you are in a hurry and need a study companion you can trust reach for New Notes on Nursing Case studies and storytelling approaches help link theory to practice Graphics icons and mind maps enhance the text and aid visual learners Written to show how specific knowledge relates to wider concepts Learning is presented in small self contained sections for quick location and digestion Terms and concepts are explained using simple language Content is clearly mapped to NMC standards Accompanying videos provide additional insights and bring study to life

International Partnerships for Strengthening Health Care Workforce Capacity: Models of Collaborative Education Jeanne Mahoney Leffers, Jennifer Gail Audette, Kevin S. Hardwick, William Van Cleve, 2018-07-31

A critical problem in resource scarce countries across the globe is the shortage of appropriately trained health care providers According to the World Health Organization the current global health workforce shortage of 7.2 million providers is estimated to increase to 12.9 million by 2035 This disproportionately affects resource scarce countries denying basic health care to millions and limiting access to life saving treatments Due to limited resources in these countries not enough health professionals receive training few have the opportunity for continuing education and the ability to develop or implement educational programs and curricula is constrained Additionally many existing providers choose to emigrate in pursuit of professional advancement opportunities contributing to the overall shortage of qualified health care providers in these environments Efforts to strengthen health workforce capacity not only increases access safety and availability of care but is critical to building resilient health systems capable of caring for the world s neediest populations This requires not only cultivating new health care providers but also providing ongoing professional development to retain and support current providers advancing the level of practice in accordance with current clinical science cultivating educators and enhancing training curricula It is critical also to contribute to the limited body of research documenting the effectiveness and impact of various models of collaborative education and partnership to improve health worker training and retention This Research Topic examines strategies for building health workforce capacity through the prism of educational partnerships offering significant examples of effective models of international collaborative education as well as insight and guidance on the structure and operation of successful global partnerships Collectively the 31 articles accepted and included in this eBook represent a diversity of health professions and geographies across academic non governmental organizations and other global partnership forms The published manuscripts highlight various elements of partnerships with several consistent themes emerging capacity building local empowerment mutual trust and respect long term commitment equity collaboration and the importance of integrating theory and practice for a balance of academic and clinical development The manuscripts provide examples of partnership and educational programs that are in the formative early stages of implementation and others which have been sustained long term some for decades The following eBook is divided into two parts with each part broken down into sections Part I of the eBook includes 18 manuscripts that showcase long term educational programs that strongly exemplify multiple foundational aspects of international partnerships in education including mutual collaboration and project management empowerment of host partners to lead and sustain programs and capacity building While individual manuscripts included in Part I look broadly at multiple aspects of successful

international partnerships in education Part II manuscripts focus intently on one two elements Part II includes 13 articles that highlight partnership through short rather than long term educational initiatives as well as program development and broad academic partnerships This Research Topic was sponsored by Health Volunteers Overseas a United States based non profit that collaborates with over eighty international universities and health institutions to send volunteer health professionals to low resource countries to provide continuing education train the trainer courses professional support and consultation on academic program and curricula development
