Meyer,Susan E. Van Niekerk,2008 There is a great need for qualified nurse educators in South Africa to enhance the quality of the development of student nurses and therefore to enhance the quality of nursing care This book applies didactics in theoretical as well as clinical nursing education using examples to illustrate the text Continuing to Care Karen Ann Conner,2013-08-21 Continuing to Care describes the challenges of an aging America and changing family system Caregiving has always been a primary obligation of the family based on an informal intergenerational contract that specifies who owes what to whom This system of intergenerational reciprocity has been a central feature of American family life and has formed the foundation for successful social programs such as Social Security and Medicare that support older Americans Recent changes in the American family threaten the intergenerational family contract Changing definitions of family increasing divorce and remarriage rates the establishment of blended families and dramatic changes in the age structure and intergenerational composition of the family affect the ability of this important social unit to continue to provide care to its members Change in

the American family system raises some difficult personal and social questions What is the obligation of adult children to elderly frail parents Are we expected to provide care ourselves or is supervising care provided by others an acceptable alternative Do the same rules apply in the case of step parents What is a child's obligation to a long absent father Can Americans continue to juggle responsibility for their children with the demands of careers and the needs of aging parents How much longer will we do it And what will society do if we decide to stop These questions need to be addressed as we reexamine our families caregiving role Continuing to Care brings these questions into the public forum for consideration and debate

Health Financing and Costs Sonya Gill, Shirish N. Kavadi, 1999 *Chronic Diseases in the year 2005* Chronic Diseases Scenario Committee, 2012-12-06 Aims and approach In order to chart the way for long term policies in the field of public health the Dutch government needs to have the best possible insight into potential future trends and the problems to which these could give rise It was with a view to compiling a number of long range studies that the independent Steering Committee on Future Health Scenarios was set up in 1983 In 1988 this body appointed a board of experts to survey the future of Chronic Diseases Three chronic diseases have been selected diabetes mellitus CNSLD chronic non specific lung disease and rheumatoid arthritis a chronic disorder of the joints In close consultation with this board the study has been conducted by the Department of Epidemiology of the National Institute of Public Health and Environmental Protection in Bilthoven This report contains the results of the research into CNSLD The report on diabetes mellitus was published in March 1990 while that on rheumatoid arthritis followed shortly 1991 The series has been concluded with a final report spring 1992 in which among other things the results of the three reports have been brought together with a view to arriving at an overall picture of chronic diseases The research had two main objectives 1 *Social Policy and the Labour Market* Philip R. de Jong, Theodore R. Marmor, 2019-07-23 First published in 1997 this volume examines why while mature welfare states are being trimmed and privatised new social welfare arrangements are implemented in formerly communist and newly industrialised countries The papers in this volume bring together these different worlds but also different academic approaches Micro economic analyses of social insurance and welfare systems are joined with broader political descriptions of

social policy in such disparate regions as Scandinavia China Italy Poland and South Africa They give the reader a sense of the fundamental problem of finding a social welfare system that fits specific economic and cultural conditions This volume is the second in a series on international studies of issues in social security The series is initiated by the Foundation for International Studies on Social Security FISS One of its aims is to confront different academic approaches with each other and with public policy perspectives Another is to give analytic reports of cross nationally different approaches to the design and reform of welfare state programs The present and next volume form a twin set in the sense that they both are based on selections from papers presented at seminars held by FISS in 1994 1996 **Forthcoming Books** Rose Arny,1989-09

even to flourish in the apartheid state The book offers new ways of exploring the history of apartheid apartheid medicine and health care The long history of Chris Hani Baragwanath Hospital its full current name or Bara as it s popularly known has been shaped by a complex set of conditions Established in the early 1940s Bara stands on land purchased by the Cornish immigrant John Albert Baragwanath in the late nineteenth century He set up a refreshment post trading store and hotel on the site in what is now Soweto which was a one day journey by ox wagon from Johannesburg The hotel became affectionately known as Baragwanath Place the surname is Welsh from bara meaning bread and gwenith meaning wheat The land was then bought by Corner House Mining Group and later taken over by Crown Mines Ltd but was never mined The British government bought the land in the early 1940s to build a military hospital but by 1947 Baragwanath ceased to operate as a military hospital and under the auspices of the Transvaal Provincial Administration a civilian hospital was opened with 480 beds Patients were transferred from the non European wing of the Johannesburg General Hospital in the white area of Johannesburg Links were immediately forged with the University of the Witwatersrand and Bara would over time become one of its largest teaching centres This link brought medical students and their teachers into direct contact with apartheid in the medical sphere This book will contribute to studies of the history of apartheid that have begun to provide a more nuanced account of its workings The history of Baragwanath and of the doctors and nurses who worked there tells us much about apartheid ideology and practice as well as resistance to it in the realm of health care
