Professional Collaboration with Parents of Children with Disabilities Louise Porter,Susan McKenzie,2000-10-23 The work of professionals with children with disabilities affects the children s family while events at home affect what professionals can achieve with the children This text describes how professionals can form collaborative relationships with

the parents of the children in their care to optimise the children's development and to enable both family members and professionals to work in the children's interests. It describes experiences of families who have a child with a disability and takes a new look at old assumptions that disability necessarily has a negative effect on families or that families themselves are in need of therapy simply by virtue of having a child with additional needs. This text offers practical insights and guidelines for action by teachers, occupational therapists, physiotherapists, speech pathologists and psychologists. It is a practical text that enables practitioners to offer a high quality service to children while supporting the family in its role of nurturing their child with special needs.

Teacher-parent Collaboration Louise Porter, 2008. This important new book is a practical guide for teachers who want to improve relationships with the parents of their students. It empowers them with the skills and confidence necessary for productive collaboration and addresses a range of issues that affect children's functioning and achievement. Teacher-Parent Collaboration presents jargon-free and solution-based approaches to collaboration which draw on the inherent strengths that all individuals have no matter how bleak their personal situation.

Kids Can Be Kids Shelly J Lane, Anita C Bundy, 2011-11-11. This groundbreaking text by two noted educators and practitioners with contributions by specialists in their fields presents a comprehensive evidence-based approach to pediatric therapy. Their work reflects the focus of practice today: facilitating the participation of children and their families in everyday activities in the content of the physical and cultural environments in which they live, go to school and play. The authors describe the occupational roles of children in an ecocultural context and examine the influence of that context on the participation of a child with physical, emotional or cognitive limitations.

Handbook of Early Childhood Education Robert C. Pianta, W. Steven Barnett, Laura M. Justice, Susan M. Sheridan, 2012-02-23. Comprehensive and authoritative, this forward-thinking book reviews the breadth of current knowledge about early education and identifies important priorities for practice and policy. Robert C. Pianta and his associates bring together foremost experts to examine what works in promoting all children's school readiness and social-emotional development in preschool and the primary grades. Exemplary programs, instructional practices and professional development initiatives and the systems needed to put them into place are described. The volume presents cutting-edge findings on the family and social context of early education and explores ways to strengthen collaboration between professionals and parents.

The Developmental Systems Approach to Early Intervention Michael J. Guralnick, 2005.
