From Secret Ballot to Democracy Sausage Judith Brett, 2019-03-05 It's compulsory to vote in Australia We are one of a handful of countries in the world that enforce this rule at election time and the only English speaking country that makes its citizens vote Not only that we embrace it We celebrate

compulsory voting with barbeques and cake stalls at polling stations and election parties that spill over into Sunday morning. But how did this come to be when and why was voting in Australia made compulsory? How has this affected our politics? And how else is the way we vote different from other democracies? Lively and inspiring. From Secret Ballot to Democracy Sausage is a landmark account of the character of Australian democracy by the celebrated historian Judith Brett, the prize-winning biographer of Alfred Deakin. Judith Brett is the author of *Robert Menzies: Forgotten People* and emeritus professor of politics at La Trobe University. The Enigmatic Mr Deakin won the 2018 National Biography Award and was shortlisted in the NSW Premier's Literary Awards, NSW Premier's History Awards and Queensland Literary Awards. A tremendous piece of work. ABC Radio National Minefield. Brett's writing is capable of extraordinary clarity, insight and compassion. Monthly. A great treasure that sizzles like the sausage in the title. I'll be surprised if by the time you've finished it you don't like me feel a little bit prouder of the Australian democratic system. Andrew Leigh MP. Shadow Assistant Treasurer Australia led the world in broadening the franchise and introducing the secret ballot but few nations followed us down the path of compulsory voting. This absorbing book explains a century-old institution how it came to be and how it survives. Antony Green. Magnificent. Brett has constructed an excellent fast-moving narrative establishing how Australia became one of the world's pre-eminent democracies. She skilfully weaves her way through what would be in the hands of a lesser writer a dull, dry topic. Brett is right to point out that we need more than the Anzac story to understand our success. From Secret Ballot to Democracy Sausage: How Australia Got Compulsory Voting will be an important part of that conversation. Weekend Australian. Excellent. Brett's book shows how democracy sausages are the symbolic culmination of the proud history of the Australian contribution to electoral and voting practice around the world. Canberra Times. The Australian way of voting seems to us entirely ordinary but as Judith Brett reveals it's a singular miracle of innovation of which we can all be fiercely proud. This riveting and deeply researched little book is full of jaw-dropping moments. Like the time that South Australian women accidentally won the right to stand as candidates, an international first. Or the horrifying debates that preceded the Australian parliament's shameful decision to disenfranchise Aborigines in 1902. This is the story of a young democracy that is unique. A thrilling and valuable book. Annabel Crabb. *Political Parties in Transition?* Ian Marsh, 2006. Australian politics have been dominated for nearly a century by two more or less continuous political groupings: Labor and the Liberal National Coalition. But in recent decades Australians have embraced a new range of issues: gender, the environment, indigenous rights, while party membership has collapsed. *Party Games* Bridget Griffen-Foley, 2003. No Marketing Blurb. **The Tabloid Culture Reader** Biressi, Anita, Nunn, Heather, 2007-12-01. The Tabloid Culture Reader provides an accessible and useful introduction to the field. Reporting Climate Change in the Global North and South Jahnnabi Das, 2019-08-29. This book reveals how journalists in the Global North and Global South mediate climate change by examining journalism and reporting in Australia and Bangladesh. This dual analysis presents a unique opportunity to examine the impacts of media and communication in two

contrasting countries in terms of economy income and population size which both face serious climate change challenges In reporting on these challenges journalism as a political institutional and cultural practice has a significant role to play It is influential in building public knowledge and contributes to knowledge production and dialogue however the question of who gets to speak and who doesn't is a significant determinant of journalists capacity to establish authority and assign cultural meaning to realities By measuring the visibility from presences and absences the book explores the extent to which the influences are similar or different in the two countries contrasting how journalists communication power conditions public thought on climate change The investigation of climate communication across the North South divide is especially urgent given the global commitment to reduce greenhouse gas emissions and it is critical we gain a fuller understanding of the dynamics of climate communication in low emitting low income countries as much as in the high emitters high income countries This book contributes to this understanding and highlights the value of a dual analysis in being able to draw out parallels as well as divergences which will directly assist in developing cross national strategies to help address the mounting challenge of climate change This book will be of great interest to students and scholars of climate change and environmental journalism as well as media and communication studies more broadly

Trivial Pursuit George Megalogenis, 2010-11-01 In *Trivial Pursuit* George Megalogenis considers Australia's political dead zone The Hawke Keating and early Howard years were ones of bold reform recently we have seen an era of power without purpose But why Is it down to powerful lobbies or the media or a failure of leadership or all of the above And whatever the case how will hard decisions be taken for the future In *Trivial Pursuit* Megalogenis dissects the cycle of polls focus groups and presidential politics and what it has done to the prospect of serious difficult reform He argues that politics as usual has become a self defeating game and mounts a persuasive case for a different style of leadership From now on he argues it is the key divisions between young and old and north and south that will shape the nation's future But can a hung parliament and a pragmatic Labor leader rise to the challenge Rudd Gillard and Abbott sought power in 2010 on the same dangerous premise that no sacrifice is required to secure our future Government on this basis is never worth it because the promise of painless change can never be kept The voters knew it which is why they spared themselves the inevitable let down by hanging the parliament George Megalogenis *Trivial Pursuit* One of Australia's most incisive political analysts *The Australian* This issue also contains correspondence discussing Quarterly Essay 39 Power Shift from Gareth Evans Bruce Grant Michael Wesley Lyric Hughes Hale Robert D Kaplan Harry Gelber David Uren Hugh White

political These shifts not only transformed Australian politics they engendered far reaching cultural and social changes Feminists challenged man made norms and sought to recover lost histories of female achievement and cultural endeavour They made films picked up spanners and established printing presses The notion that the personal was political began to transform long held ideas about masculinity and femininity both in public and private life In the spaces between official discourses and everyday experience many sought to revolutionise the lives of Australian men and women Everyday Revolutions brings together new research on the cultural and social impact of the feminist and sexual revolutions of the 1970s in Australia Gay Liberation and Women s Liberation movements erupted challenging almost every aspect of Australian life The pill became widely available and sexuality was both celebrated and flaunted Campaigns to decriminalise abortion and homosexuality emerged across the country Activists set up women s refuges rape crisis centres and counselling services Governments responded to new demands for representation and rights appointing women s advisors and funding new services Everyday Revolutions is unique in its focus not on the activist or legislative achievements of the women s and gay and lesbian movements but on their cultural and social dimensions It is a diverse and rich collection of essays that reminds us that women s and gay liberation were revolutionary movements

Social Semiotics of Arabic Satellite Television Ali Darwish,2009 Arabic satellite television is a phenomenon that has swept the Arab world in less than two decades and is said to have dramatically changed the Arab region It has created a world of contrasts and contradictions between tradition and liberalism and a polarization of views and opinions all vying for dominance and control This book examines the social semiotics of Arabic satellite television and studies the multimodal representations of Arab social and cultural values and their implied meanings in a communication medium that heavily relies on imported western models
