Party People:

Historical Dictionary of the People's Republic of China Lawrence R. Sullivan, 2007-05-23 When the Chinese Communist Party CCP seized power in October 1949 China was one of the poorest nations in the world In fact it was so weak it had been conquered by Japan a country one tenth its size a decade earlier Now more than fifty years later the People's Republic of China PRC is an emerging economic political and military superpower with the world's fastest growing economy and largest population 1.3 billion in 2005 A member of the United Nations Security Council since the early 1970s and a nuclear power China wields enormous influence in the world community The second edition of the *Historical Dictionary of the People's Republic of China* contains more than 400 cross referenced dictionary entries on individual topics spanning China's political economic and social system along with short biographies on important figures—from politicians to writers and movie directors—who have shaped Chinese history during the period of Communist rule from 1949 to 2006 Supplementing the entries are a chronology an introduction charts outlining the structure of the Chinese government and a bibliography of works in English making this a superb resource for college and high school students needing a quick reference on contemporary China **Selections from Kuang-ming Jih-pao**, 1961 **Communist China 1955-1959**, 1971

Religion, the Enlightenment, and the New Global Order John Malloy Owen, J. Judd Owen, 2010 Largely due to the cultural and political shift of the Enlightenment Western societies in the eighteenth century emerged from sectarian conflict and embraced a more religiously moderate path In nine original essays leading scholars ask whether exporting the Enlightenment solution is possible or even desirable today Contributors begin by revisiting the Enlightenment's restructuring of the West examining its ongoing encounters with Protestant and Catholic Christianity Judaism Islam and Hinduism While acknowledging the necessity of the Enlightenment emphasis on toleration and peaceful religious coexistence these scholars nevertheless have grave misgivings about the Enlightenment's spiritually thin secularism The authors ultimately upend both the claim that the West's experience offers a ready made template for the world to follow and the belief that the West's achievements are to be ignored despised or discarded Tex McCrary Charles J. Kelly, 2009-05-16 At last someone has discovered one of the most fascinating lives of the 20th century As a crusading journalist John Reagan Tex McCrary led the way from newspapering into radio and television As a handsome adventurer this well connected Yale romanced some of the world's most talented and richest women winding up a globe girdling love affair by marrying Jinx Falkenburg then America's top model and later his partner on the air As a brave Army Air Corps colonel in World War II he took the first group of reporters into devastated Hiroshima and was instrumental in the creation of an independent U.S. Air Force As a political activist he was a powerful influence in pulling General Eisenhower back from Paris to wrench the Republican presidential nomination from the hard right even though his advocacy cost him his network job As a pioneer publicist Tex brought a social conscience to the builder of Levittown and sent a kid he was mentoring me to Moscow to set up the historic kitchen debate

between Nikita Khrushchev and Richard Nixon I could never get him to write his memoirs before he died the active octogenarian stubbornly said I won't live my life with eyes on the rear view mirror But Chuck Kelly his longtime friend interviewed him skillfully and often and now we have an adventurer's eye view of McCrary's little known role in tempestuous times William Safire *Modern Caribbean Politics* Anthony Payne, Paul K. Sutton, 1993-03 A successor volume to the editors Dependency under Challenge The Political Economy of the Commonwealth Caribbean Manchester U Press 1984 this volume reviews political and economic developments of the 1980s not just in the Commonwealth Caribbean but in the whole of the Caribbean region in original analyses by specialist scholars in the field of Caribbean studies Paper edition unseen 15 95 Annotation copyright by Book News Inc Portland OR **Organizing Political Parties** Thomas Poguntke, Paul D. Webb, Susan E. Scarrow, 2017 Political party organizations play large roles in democracies yet their organizations differ widely and their statutes change much more frequently than constitutions or electoral laws How do these differences and these frequent changes affect the operation of democracy This book seeks to answer these questions by presenting a comprehensive overview of the state of party organization in nineteen contemporary democracies Using a unique new data collection the book's chapters test propositions about the reasons for variation and similarities across party organizations They find more evidence of within country similarity than of cross national patterns based on party ideology After exploring parties' organizational differences the remaining chapters investigate the impact of these differences The volume considers a wide range of theories about how party organization may affect political life including the impact of party rules on the selection of female candidates the links between party decision processes and the stability of party programmes the connection between party finance sources and public trust in political parties and whether the strength of parties' extra parliamentary organization affects the behaviour of their elected legislators Collectively these chapters help to advance comparative studies of elections and representation by inserting party institutions and party agency more firmly into the centre of such studies Comparative Politics is a series for researchers teachers and students of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit www.ecpr.net The series is edited by Emilie van Haute Professor of Political Science Universite libre de Bruxelles Ferdinand Muller Rommel Director of the Center for the Study of Democracy Leuphana University and Susan Scarrow Chair of the Department of Political Science University of Houston Appearances of Soviet Leaders, 1986 *The World Factbook*, 1999 **The World Factbook** United States. Central Intelligence Agency, 1999 **Parties and Elections in Europe** Wolfram Nordsieck, 2025-02-26 Parties and Elections in Europe is a comprehensive reference guide to the parliamentary elections and governments in the European countries since 1945 the elections to the European Parliament since 1979 and to all significant political parties in Europe Listed are more than 1250 parties currently

active parties and dissolved or inactive parties The guide includes basic data of these parties founding years political orientations affiliations to political parties at European level political groups in the European Parliament and political internationals and a chronological summary of their history name changes predecessors mergers and splits **Sensex of Regional Parties** Aaku Srivastava,2022-09-06 Sensex Of Regional Parties by Aaku Srivastava Sensex Of Regional Parties is a book that explores the political landscape of India focusing on the performance and influence of regional parties in the country s politics Aaku Srivastava provides insights into the significance of regional parties in shaping India s governance and policies Key Aspects of the Book Sensex Of Regional Parties Political Analysis The book offers a comprehensive analysis of regional parties role in Indian politics and their impact on national and regional governance Electoral Trends Sensex Of Regional Parties delves into the electoral trends and performance of regional parties in various states and regions of India Importance of Regional Politics The book highlights the importance of regional politics and its influence on national decision making Aaku Srivastava is the author of Sensex Of Regional Parties a book that delves into the significance of regional parties in India s political landscape Srivastava s work provides valuable insights into the dynamics of regional politics in the country **Hearings Before the Committee on Un-American Activities, House of Representatives, Eighty-second Congress, Second Session** Estados Unidos. Congress. House. Committee on Un-American Activities,1952 Communist Infiltration of Hollywood Motion-picture Industry United States. Congress. House. Committee on Un-American Activities,1951

The Age of Rand Frederick Cookinham,2005-06-02 Do I think that Objectivism will be the philosophy of the future I would say yes but Ayn Rand to Playboy Magazine 1964 My views will probably be the norm in the future but not right now Ayn Rand to Johnny Carson 1967 Will they The Age of Rand describes what Ayn Rand s philosophy Objectivism will mean in practice for good and ill Rand expressed her controversial ideas in her best selling novels Atlas Shrugged and The Fountainhead Every year more commentators debate those ideas often heatedly Frederick Cookinham asks questions no author has asked before Would Objectivists destroy the environment in favor of rampant development Why will Objectivist civilization be built on the oceans and in space Is Objectivism a Nietzschean Superman philosophy Ayn Rand often said Check your premises and watch your implications Explore in The Age of Rand the astounding implications of this fast growing and provocative new system of ideas Some philosophy will dominate this new century be prepared if it turns out to be Ayn Rand s Frederick Cookinham has written something of great worth to thousands who have been affected by Rand s work Andrea Millen Rich Laissez Faire Books **Afrikaners Of South Africa** Vernon February,2013-08-21 First Published in 1991 This monograph holds a collection of Afrikaner texts which few of were written in English The choice was deliberate as the author wanted to see what was really said in the language which is such a part of the Afrikaner soul volksiel It also looks at the Dutch influence on Afrikaans The Failure of China's Democratic Reforms Zaijun Yuan,2011-12-08 In its propaganda the Chinese Communist Party does not deny the value of democracy but it insists that democracy in China can be only socialist

democracy with Chinese characteristics The most essential nature of such democracy is that it is under the single party system and it excludes multi party politics and competitive elections In recent years Chinese democracy has won more support because of achievements the party has made in developing economy This raises a question does this efficient authoritarian political system in China even if it is not democratic deserve applause because it can facilitate economic development The party also insists that it is democratic But is the party s theory of democracy compatible with western democracy Since 1998 the party has organized some political reforms such as direct elections for township executives direct elections for township party secretaries township party congress reform and deliberative democracy experiments while maintaining single party politics In the party s propaganda some of these reforms have become party achievements in improving socialist democracy with Chinese characteristics In addition to these four kinds of party organized reforms another reform originated from the grassroots the participation of independent candidates in a few local people s congress elections This book examines these five local political reforms It demonstrates that the four reforms instigated and organized by the party were tightly controlled and manipulated by the party Although some reform measures may possibly liberalize parts of China s political mechanism it is highly unlikely that the four reforms will eventually lead to political democratization in China In the fifth reform which was motivated from outside the bureaucratic system the party took drastic measures to repress the political participation of grassroots power As a result nearly all independent candidates in the local people s congress elections failed in their attempts to gain office The prospects for this reform are also poor The book argues that all five reforms have failed and that none will lead to China s democratization in the near future The book concludes that the party s authoritarian regime in China is by nature anti democratic and that so called socialist democracy with Chinese characteristics is not democratic

Russia: From Proletarian Revolution to State-Capitalist Counter-Revolution

Raya Dunayevskaya, 2017-07-10 Russia From Proletarian Revolution to State Capitalist Counter Revolution is a selection of writings by the Marxist Humanist philosopher Raya Dunayevskaya which begins with an examination of Lenin s Hegel Notebooks his philosophic preparation for proletarian revolution followed by a section on What Happens After the revolution the first years post 1917 Analyses of Trotsky Stalin Bukharin and Luxemburg are presented A key section is Russia s Transformation into Opposite The Theory of State Capitalism Opposition to Russian state capitalism such as the 1953 East Germany Revolt and the 1956 Hungarian Revolution are described Mao s China as another form of state capitalism as well as the Sino Soviet conflict is discussed The study ends with a battle of ideas with other analyses of the Revolution and its aftermath

Daily Report, Foreign Radio Broadcasts United States. Central Intelligence Agency, 1967

Resistance and the State David Gellner, 2007-04 There has been growing concern about failed states and since the massacre of the Royal family in Nepal in 2001 increasing media attention has focused on the decline of the state and the rise of the Maoist rebels This book explores the complex relationship between a modernizing developmentalist state and the people it professes

to represent
