**Models of Democracy in Nordic and Baltic Europe** Nicholas Aylott, 2016-04-15 This book explores the ways in which representative democracy works in two neighbouring collections of European states the Nordic Denmark Finland Iceland Norway and Sweden and the Baltic Estonia Latvia and Lithuania Starting from a Nordic vantage point contributors explore the extent to which aspects of politics function similarly or dissimilarly across the two groups of democratic states acknowledging the differences in models of democracy that occur within each group Authors explore the possibility that some of the apparently successful institutional features of Nordic politics have somehow influenced politics in the Baltic states despite the considerable contextual differences between the two groups The Nordic Baltic comparison is particularly worthy of study given the comparative stability of the Nordic democracies and the half century of occupation by a totalitarian dictatorship that the Baltic states endured The central guiding questions are how does political representation work in countries that have a lot in common but also a few significant contextual dissimilarities and what if any relationships between the respective styles of democracy can be identified Using a variety of theories perspectives and methods the empirical studies that populate the book seek to offer reflections on these questions

*Women's Access to Political Power in Post-Communist Europe* Richard E. Matland, Kathleen A. Montgomery, 2003-05-01 This book considers women's access to formal positions of power in the newly formed democracies of post communist Europe While acknowledging the relevance of recent history this book takes an important step away from the communist legacy and explicitly argues for a framework based on causal variables identified in the existing literatures from industrialized democracies on women and politics and legislative recruitment After a brief introduction the second chapter sets forth a general theoretical framework which posits that the level of female legislative representation in a given country is a function of the relative supply of and demand for female candidates After a chapter considering a broad overview of public opinion on women and politics in Eastern Europe thirteen country chapters spanning the spectrum of Eastern European democracies address and test hypotheses about the key variables affecting the supply and demand sides of the equation in individual countries Relevant aspects of the communist cultural and developmental legacy are addressed but authors give particular attention to political factors such as electoral rules and the characteristics of the emerging party systems that vary within the Eastern European countries The new democracies of Eastern Europe provide a novel context in which to test and extend our theories about the consequences of political institutions for the quality of democracy Since institutional arrangements are more malleable than developmental or cultural characteristics those variables also offer the greatest promise to scholars and practitioners wondering what can be done to improve women's access to formal arenas of political power How can we build democracies that are stable lasting and representative A careful analysis of the post communist context can help us to address issues concerning institutional design and development that has relevance well beyond the Eastern European context

Continuity and Change in the Baltic Sea Region David J. Galbreath, Ainius Lašas, Jeremy W. Lamoreaux, 2008 Continuity and Change in the Baltic Sea Region uncovers the Baltic States foreign policy

transition from Socialist Republics to EU member states Situated between the Russian Federation and Northern Europe Estonia Latvia and Lithuania have had to manoeuvre within an often delicate sub region Since independence the foreign policies of the Baltic States have been dominated by de Sovietization and European integration Lying at the crossroads between small state theory and identity politics this analysis engages with the development of Baltic foreign policies as post Soviet small and transitioning states The authors argue that Estonia Latvia and Lithuania dictated their early foreign policy agendas based on a process of identity construction and as a response to their regional environment This process took the Baltic States from East to West in their foreign policy aspirations Key factors in foreign policy making and implementation are discussed as well as external factors that shaped Baltic foreign policy agendas Overall the book illustrates how continuity and change in the Baltic foreign policies has been shaped by both hard and soft factors It is a study in the foreign policies of transitioning states and in this regard illuminates a much larger research area beyond its geographic focus

**The Deinstitutionalization of Western European Party Systems** Alessandro Chiaramonte, Vincenzo Emanuele, 2022-04-18

This book offers a systematic and far reaching account of party system institutionalization in Western Europe Drawing upon a wide array of data and through a comparison of 20 countries from the end of WWII to 2019 across three arenas of party competition electoral parliamentary and governmental ones the empirical analysis shows that over the past decade the level of institutionalization in the Western European party systems has dramatically declined compared with previous decades Electoral parliamentary and in some cases governmental instability and unpredictability have reached record high levels Although the impact of the 2008 Great Recession has certainly worked as a catalyst this process of de institutionalization has been mainly driven by long term factors such as cleavage decline and length of democratic experience Moreover its consequences are relevant not only for the relationship between parties and voters but also for the very quality of democracy as party system deinstitutionalization causes a decline in the citizens satisfaction of the way democracy works and even an erosion of the objective democratic standards In a nutshell Western Europe once seen as the land of stability and the cradle of democracy may have become the land of party system deinstitutionalization and incipient democratic backsliding

*Contemporary Environmentalism in the Baltic States* David Galbreath, 2013-10-18 This book examines the relationship between environmentalism and political transition in Estonia Latvia and Lithuania Environmentalism was a strong force behind the nationalist movements preceding the independence of the Baltic States and the subsequent collapse of the Soviet Union The contributors illustrate how the Baltic States face contemporary environmental challenges through transition enlargement and integration into the European Union This edited collection brings the reader through the political economic and social changes of the post Soviet Baltic States as a way of examining how transition influences environmentalism Secondly the book looks at how the enlargement of the European Union to encompass the Baltic States has influenced political and legal approaches to the environment Finally the contributors examine how regional and global environmental

narratives have shaped contemporary environmentalism in the Baltic States From eco nationalism to the world s first green prime minister environmentalism continues to play an important role in Estonia Latvia and Lithuania This book was published as a special issue of the Journal of Baltic Studies *Institutional Design and Party Government in Post-communist Europe* Csaba Nikolenyi,2014 This books examines the institutional foundations of coalition government in the ten post communist democracies of Eastern and Central Europe for the 1990 2010 period Bulgaria the Czech Republic Estonia Hungary Latvia Lithuania Poland Romania Slovakia and Slovenia Its central argument is that differences in the arrangement of political institutions systematically explain variations in patterns of multi party government across these states The book starts with the premise that electoral systems and constitutional provisions about the powers the structure and the relationship between parliament and the presidency determine the degree to which political power is dispersed or concentrated in the political system On the basis of these institutional features three groups of states are distinguished with regard to their degree of power concentration the substantive chapters of the book demonstrate how these institutional combinations and differences shape three specific facets of party government which capture the main stages of the lifecycle of coalitions governments the formation of electoral coalitions government formation and government duration Specifically three comparative chapters assess the impact of institutional power concentration on the size of electoral coalitions the likelihood that political parties form a minority government and the number of days that a government lasts in office The main finding of the book is that power concentration matters political parties in those democracies where institutions are designed to concentrate political power tend to form large electoral coalitions they tend to form majority rather than undersized governments and they build more durable cabinets In addition the book contains a detailed case study of government formation in Hungary and a previously unstudied comparison of indirect presidential elections in four states the Czech Republic Estonia Hungary and Latvia Comparative Politics is a series for students teachers and researchers of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit [www.ecpr.net](http://www.ecpr.net) Party Systems in Young Democracies Edalina Rodrigues Sanches,2018-01-03 Institutionalization has become a paramount concept to compare party systems in regions spanned by the third wave of democratization Based on raw electoral data from 30 sub Saharan African countries observed between 1966 and 2016 this text explores the causes and mechanisms of Party System Institutionalization PSI and its relationship with the processes of mobilization and democratization Posing key theoretical and empirical questions in cross regional comparison it examines and reveals the defining properties of PSI how they should be measured and under what conditions it varies In doing so it contributes with a new explanatory framework of party system development that gives primacy to modes of transition political institutions and party citizen linkages to further cross regional comparisons among

third wave party systems This text will be of key interest to scholars and students of democratization elections and African politics and more broadly to comparative politics Multifaceted Nationalism and Illiberal Momentum at Europe's Eastern Margins Andrey Makarychev,2021-05-20 This edited volume addresses the set of politically challenging issues that the advent of populist movements raised for individual nation states and the whole Europe Based on critical engagements with the extant scholarship in comparative politics political philosophy international relations regional studies and critical geopolitics this collection of chapters offers the interpretation of the contemporary populism as illiberal nationalism and underscores its deeply political challenge to the post political core of the EU project The contributors discuss the deep transformations within the fabric of contemporary European societies that makes scholars rethink the post Cold War hegemonic understanding of liberal democracy as the dominant paradigm destined to expand from its traditional hotbed in the West to other regions This edited volume intends to stretch analysis beyond the conventional accounts of populism as an anti elite and extra institutional appeal to the general public for the sake of its mobilization against incumbent power holders and look for more nuanced meanings inherent to this term The chapters in this book were originally published in European Politics and Society and the Journal of Contemporary European Studies Historical Dictionary of Belarus Grigory V. Ioffe,Vitali Silitski Jr.,2018-08-15 Belarus is one of fifteen successor states of the former Soviet Union It s the only post Soviet state that is in full of control of its territory and has no territorial conflicts with its neighbors It s squeezed between Russia and the European Union Belarus had never been an independent nation prior to the Soviet Union s disintegration and its identity is still evolving This third edition of Historical Dictionary of Belarus contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 500 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Belarus **Political Parties in Post-Communist Eastern Europe** Paul Lewis,2002-01-04 Political Parties in Post Communist Eastern Europe is the first textbook to survey the course of party developments in eastern Europe as a whole in the post Communist period This book relates the specifics of the post communist situation to the broader picture of the early stages of party development in western Europe and also to contemporary models of party organisation in established democracies The book includes a brief historical introduction to the context of post communist change the process of competitive party formation and democratic elections the development of independent parties their ideologies and electoral volatility the structure and level of organisation developed by new parties an analysis of stable party systems which have emerged in eastern Europe and the contribution they make to emerging democracies in the region Party Politics in Post Communist Eastern Europe will be a comprehensive and invaluable resource accessible to undergraduates of politics and European studies as well as the non specialist reader

Shocking Mother Russia Andrea M. Chandler, 2004-01-01 Examining the reform process of the old age pension system in Russia from its Soviet origins to the Putin era *Shocking Mother Russia* adds significantly to the growing body of literature on comparative social policy and the political challenges of pension reform Andrea Chandler explains why Russia's old age pension system went into decline after the collapse of the Soviet Union in 1991 even though it was a prominent issue in the political arena at the outset of the post communist transition While tracing the roots of the system's difficulties to the Soviet Union's first efforts to establish a national social welfare system after 1917 Chandler nonetheless devotes the bulk of her study to the period from 1990 to 2001 While political factors impeded reform for much of this eleven year period ultimately Russia's striking policy reversals provide a case study for developing nations In 1990 a new Russian pension law was adopted during the Soviet reform process of perestroika The system was again significantly altered in 2001 when a market reform oriented package of pension legislation was passed *Shocking Mother Russia* places the Russian experience in comparative perspective and suggests lessons for pension reform derived from analysis of the Russian case
