Differential Diagnosis and Treatment in Social Work Francis Joseph Turner, 1983 **Primed for Life** Lorna Kalaw-Tirol, 2017-11-22 Midlife crisis is very dreading especially among men Even though they mask their condition with masculine flippancy or bravura they suffer from slings and arrows too In this collection of essays compiled by Lorna Kalaw Tirol delve deeper into some of midlife men's inner lives Here are gems of glimpses into men's inner lives that we will find nowhere else except in good fiction From the Foreword by Mariel N Francisco **Life-span Development** Leonie Sugarman, 2004-03-01 This thorough revision of the highly successful first edition of *Life Span Development* offers the reader a wide ranging and thought provoking account of human development throughout the lifespan The lifespan approach emphasises that development does not stop when we cease to be adolescents but goes on throughout adulthood and into old age In initial chapters Leonie Sugarman outlines the issues surrounding the notion of development and how it can be studied including reviews of the work of key theorists Erikson Levinson and Gould She goes on to consider the different ways in which the life course can be construed as a series of age related stages as a cumulative sequence as a series of developmental tasks as a series of key life events and transitions or as a narrative construction which creates a sense of dynamic continuity A final chapter looks at how people cope the resources that are available and the theoretical and practical issues regarding interventions to assist them in the process New to this edition is increased coverage of the topical issue of successful ageing and a new chapter on the increasingly popular narrative approach to lifespan development This edition is also more student friendly with exercises in self reflection that encourage the reader to look at the development of their own lives or those of their current or future clients Boxed material highlighting major theories and clarifying concepts is also included This book will be invaluable for students of developmental and occupational psychology and professionals in the fields of health management education and social work **Toward an Adult Church** Jane E. Confirmation Eucharist Children participate in these sacraments and many other Catholic rites thanks to America's long standing model of parish catechesis. Once children become adults however what becomes of their faith formation. In *Toward an Adult Church: A Vision of Faith Formation* Jane Regan explores the current structure of parish catechesis. Basing her ideas on contemporary theory and traditional practice Regan sets forth an intriguing argument the vitality of the Church depends on establishing a new education paradigm one that is focused on adults. How can parishes design a framework for adult catechesis. Will such programs be accepted by local church communities. Where does children's faith formation fit into the new structure. Regan answers these questions and offers ideas for developing a balanced approach to religious education one that addresses the ongoing faith life of adults.
